

Shower Curtain Liner Buying Guide

The Shower Curtain Liner is an easy-to-install, budget-friendly, essential piece of bathroom décor that helps to keep water inside of the tub and off the floor. Shower Curtain Liners from Kenney® are made from environmentally friendly PEVA, making them PVC-free and odorless.

Features to Consider

Eyelets and Grommets

Kenney Lightweight PEVA Liners include durable hang holes whereas Kenney Medium and Heavyweight include fashionable metal grommets.

Gauge

Shower Curtain Liners come in a variety of different gauges or thickness. The higher the gauge, the more durability the liner.

Weighted Hem

A weighted hem helps keeps the liner in place and helps to prevent billowing.

Antimicrobial

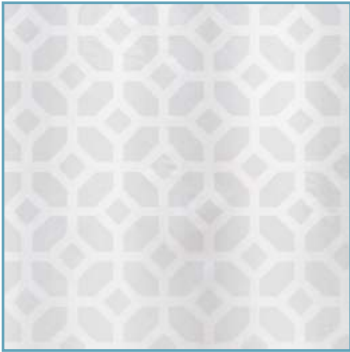

Microban® antimicrobial technology inhibits the growth and reproduction of odor-causing bacteria, mold and mildew and provides enhanced product protection from microbes.

Solids, Patterns & Sets

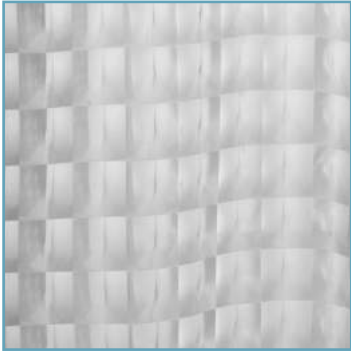

Solids

PEVA Liners are available in a variety of trendy solid colors to match your home décor.

Printed

Printed PEVA Liners display more uniqueness and personality with stylish, trendy, or whimsical patterns.

Embossed

Embossed PEVA Liners are typically semi-transparent and showcase attractive embossed designs.

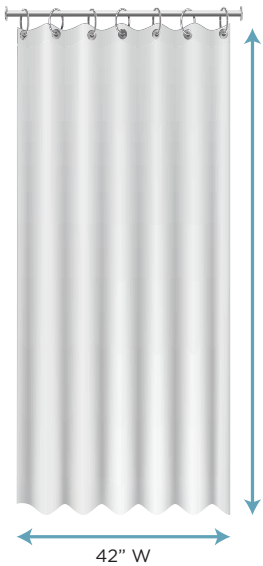

Solids with C-Rings or Beaded-Rings

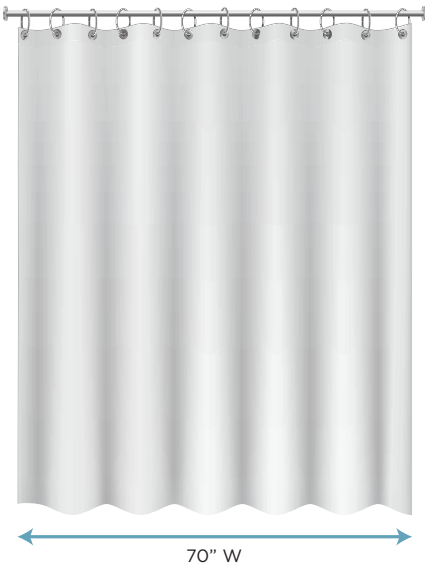

Solid PEVA Liners are also available in sets with Plastic C-Rings or Metal Roller Rings.

Choosing the Right Size

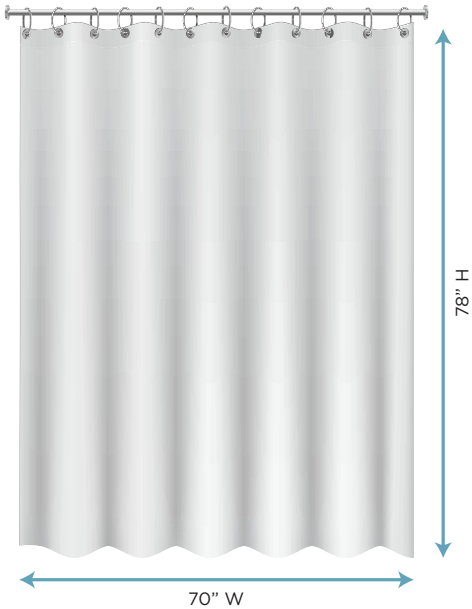

Kenney PEVA Shower Curtain Liners are available in a variety of sizes. Simply measure the shower opening and height of shower head to determine the best fit.
