## installation instructions

Friendly Tip: Take a deep breath going in. This is easy even if you are not used to tools. Just follow these steps to the T, and the outcome will be worth it!

step 1:

Measure the distance between the two sawtooth using a measuring tool.

step 2:

Place the measuring tool against the wall and make two marks where you want to mount the shelf.

step 3:

Drill holes at the points you just marked.

step 4:

Using a hammer, insert the wall plugs (C) inside the holes.

step 5:

Fix the screws (B) into the wall plugs (C). Use a screwdriver to make sure they are secure.

step 6:

Place the sawtooth over the screws. Repeat steps to install the remaining shelves.
