

DIRECTIONS: Stir well before using. Wires or terminal to be sealed must be clean and dry. Brush or dip Star brite® Liquid Electrical Tape on electrical connection area. Allow to dry for 5 minutes and apply second coat if greater thickness of seal is needed. Succeeding coats may be applied at 5 minute intervals to build up extremely thick protection. Product fully cures in 24 hours.

CAUTION: Turn off power before starting electrical work. All electrical work should be done according to electrical codes.

DANGER: FLAMMABLE LIQUID AND VAPOR. HARMFUL OR FATAL IF SWALLOWED. Contains methyl ethyl ketone. Do not use near heat, sparks or open flame. Use with adequate ventilation. Avoid prolonged breathing of vapors. Take precautions to avoid prolonged and repeated contact with skin. If swallowed, give several glasses of water, but DO NOT induce vomiting. Contact physician immediately.
KEEP OUT OF REACH OF CHILDREN.

WARNING: This product contains a chemical known to the State of California to cause cancer and birth defects or other reproductive harm.
