## Operation

### Turn on/off

Turn on

Start or stop

Press this key to start operation.

Operation mode (automatic or air volume mode) will operate in the same mode as the last time it stopped working.

### Speed mode

Speed

Select the appropriate speed to purify the air. Touch this button to switch. Every touch, Speed indicator "1","2","3","A" cycle to switch. The purified max air flow is "3". "A" means automatically adjust the air flow according to the ambient air pollution around the machine. "A" and Sleep mode are the quietest modes.

### Sleep mode

Sleep

Light sensing function

When the light is dark, the Sleep mode will be turned on automatically. When the light is bright, the Sleep mode will be turned off automatically.

When the Sleep mode is turned on, except for the sleep indicator and timer indicator (when the timer function is turned on), all the other indicators go out, and the wind speed turns to low mode.

### Timer mode

Timer

Time running, 1 hour, 2 hours, 4 hours, 8 hours mode.

Touch this key to switch. Each touch will switch the timing indicator light in the following order.

### Child lock mode

Child lock

Under working condition, long press the child lock (more than 3 seconds) to enter the child lock mode, the indicator light above the child lock is on, all function keys are touched invalid.

Touch the child lock (more than 3 seconds) to exit the child lock mode, the indicator light off.

### Filter to reset

Filter

The machine will automatically detect the life of the filter, and the indicator light of the filter will blink when it needs to be replaced.

**Long press the sleep button to reset the filter.**

When the user changes the filter, turn on the machine, the filter indicator flashes. Other functions cannot be used normally.

After replacing the filter, long press the sleep button, the indicator light of the filter will go out, and the filter will be reset successfully.

### Ionizer mode

Ionizer

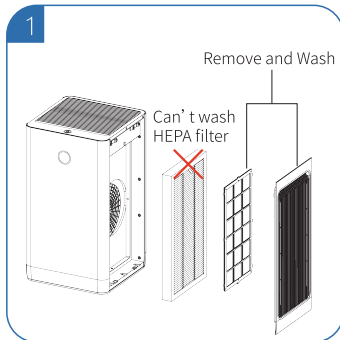

**Ionizer mode fresh air**

Touch ionizer button to start the ionizer mode, and the air volume of the product will still run at the current gear. When selecting this mode, it can be timed, and touch this button again to cancel the ionizer mode.

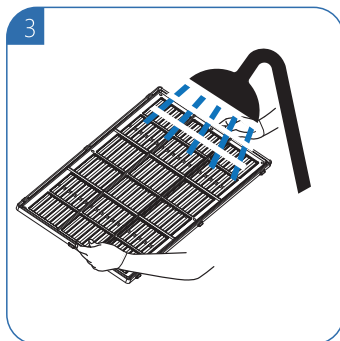

## Care & Cleaning

### Cleaning

- ① Remove the air intake grilles and pre-filters.

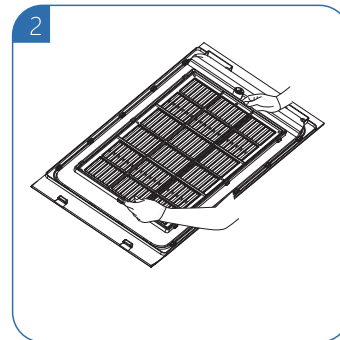

**Note: Can't wash the HEPA filters.**

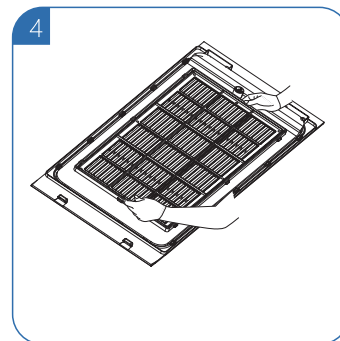

- ③ Clean the pre-filter.

### Long idle time

1. stop the operation of the product and pull out the power plug.
2. clean the surface dash of the filter and air it outdoors for a period of time.  
Pay attention to avoid direct exposure.
3. Put in plastic bags and cartons and store in a dry place.

- ② Take out the pre-filter

- ④ Install back the pre-filter.  
⑤ Install the filter cover back into the machine.

### STORAGE

If you do not need to use the air purifier for a long time, please store it in the following ways:

1. Turn off the air purifier, cut off the power and sort out the power cord.
2. Clean the filter and dry it out.
3. Put away the air purifier and place it in the position unexposed to sun.
