Star brite® wax/polish

PREMIUM MARINE POLISH

PREMIUM MARINE POLISH REPELS STAINS AND DEPOSITS, MAKING CLEANUP QUICK AND EASY. FORMULATED FOR USE ON FIBERGLASS, METAL, PLEXIGLASS, AND PAINTED SURFACES, SPECIAL UV-INHIBITORS GUARD SURFACE AGAINST FADING AND CHALKING.

PREPARE SURFACE: Wash surface with a *Star brite Boat Wash* to remove dirt and grime. If surface is faded, chalking, or oxidized, treat with *Star brite Restorer Wax* or *Cleaner Wax* to restore finish.

DIRECTIONS: Apply product evenly in an overlapping, circular motion with a clean cloth to a small area while wax is wet. Wax will quickly dry to a haze. Wipe off resulting haze with a clean, dry towel or cloth.

NEXT STEPS: For best results, apply a second coat within 30 days. Two applications will provide exceptional protection against fading, chalking, rust, corrosion, and degradation. For fast and easy touch-ups, use *Star brite Ultimate Boat Guard Speed Detailer* to keep your boat shining brite.

DANGER: COMBUSTIBLE. HARMFUL OR FATAL IF SWALLOWED. Contains petroleum distillates. If ingested, do not induce vomiting. Call a physician immediately. Do not use near high heat, sparks or flames. Use only in well ventilated areas. KEEP OUT OF THE REACH OF CHILDREN.

Ingredients: cumene, diethanolamine, distillates, petroleum, light, hydrotreated, ethylbenzene, isopropanol, methanol, octamethylcyclotetrasiloxane, quartz, stoddard solvent, water. For more ingredient information visit www.starbrite.com.
