

1**SCORE**

Using the ROMAN Scoring Tool, perforate the wallpaper to allow the remover solution to penetrate and break down the paste. Use light pressure only – too much pressure may damage the wall surface under the wallpaper.

2**MIX**

Protect surfaces and floor with a drop cloth. Mix 6 oz. of concentrate to every 1 gallon of hot tap water (120°F). The 32 oz bottle of concentrate makes 5 gallons of remover, enough to remove up to 1,500 square feet of wallpaper.

3**APPLY**

Apply remover to scored wallpaper with a low pressure, low atomization sprayer, such as a garden sprayer. Remover may also be sponged on. Allow the remover to saturate and soak into the wallcovering for a minimum of 15 minutes. Test removability and re-saturate if needed.

4**SCRAPE**

Working from the ceiling down, use the ROMAN Scraper to remove the wallpaper from the wall. Re-apply remover as needed. After the wallpaper has been removed, rinse the wall with clean water and allow wall surface to dry thoroughly before painting or installing wallpaper.

LIMITED WARRANTY: ROMAN Products, LLC warrants that it will replace this product free of charge if within 12 months of manufacture it is found defective in material or workmanship. This warranty is in lieu of any other. The exclusive remedy is limited to the replacement of the product and ROMAN disclaims all liability for consequential, punitive and special damages. Conditions of use are beyond our control. This product contains no substances which, at their given concentration, are considered to be hazardous to health.

KEEP OUT OF REACH OF CHILDREN.

FIRST AID: Eye Contact: Flush with water for at least 15 minutes holding eyelids open. Skin Contact: Wash thoroughly with soap and water. Inhalation: Move to fresh air. Seek medical attention if irritation or other symptoms occur and persist. If swallowed: DO NOT induce vomiting. Never give anything by mouth to an unconscious or drowsy person. Rinse mouth with water. Immediately call a physician or poison control center

WARNING: This product can expose you to chemicals including ethylene oxide, which is known to the State of California to cause cancer and birth defects or reproductive harm. For more information visit www.P65Warnings.ca.gov.
