

CARE TIPS AND GENERAL INFO FOR:

ROSEMARY

EXPOSURE:

FULL SUN

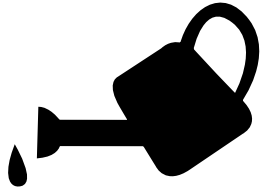

Festuca thrives in the heat.

BLOOMTIME:

Tiny blue blooms cover Rosemary plants late in the summer. It is their aroma and culinary aspects, however, that are most attractive.

WATERING NEEDS:

MINIMAL

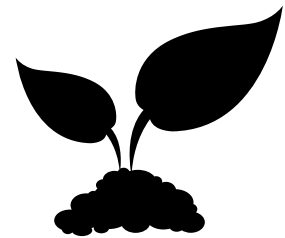

Rosemary prefers soil on the dryer side.

FERTILIZER:

Use a slow release granular fertilizer in the spring and fall.

SOIL TYPE:

RANGING

Rosemary is incredibly tolerant and can be grown in a wide variety of soil types.
