

## PROFESSIONAL MOLDING PRY BAR

### 110200

#### COMPACT

10.5" length is perfect for tight spaces

#### OPTIMIZED

32° angle provides ideal leverage for removing tack strip and base molding

#### LEVERAGE

Curved design provides precise angles and optimal leverage to easily pull base molding and tack strip

#### DESIGN

Leverage to pull full 1" nails from subfloors

#### DURABILITY

High-carbon forged steel construction with bright nickel plating for extended durability

#### MULTIPURPOSE

Notched ends and upgraded deep bevel slots for quick and easy nail removal

A must have for floor installers, Capitol® Professional Molding Pry Bar is the perfect tool to remove molding. Its curved design provides precise angles and optimal leverage to remove molding and tack strip, especially in small, hard to reach places where a large pull bar won't fit. Manufactured from high-carbon forged steel, its upgraded deep bevel nail slots ensure easy, quick removal.
