## Non-electric Bidet Seat for V Shape Elongated Toilets in White

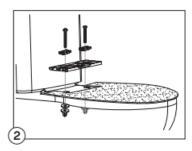

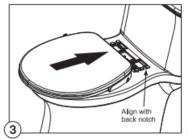

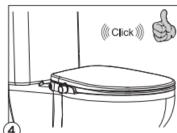

## INSTALLATION

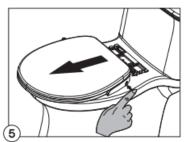

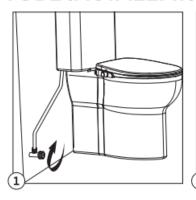

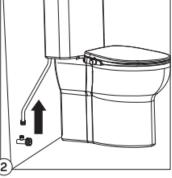

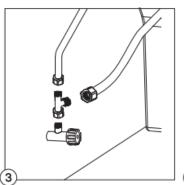

- 1. Position the template onto the bowl and use it as a guide to align the mounting plate.
- Position the mounting plate over the bowl holes. Insert the adjustment plates into the mounting plate to align with the bowl holes. Install the seat bolts, nuts and washers to secure the mounting plate to the bowl.
- 3. Position the seat over the mounting plate (the back of the seat needs to align with the back notch), then slide the seat backwards.
- 4. There will be an audible click when engaged correctly.
- 5. To remove the seat, press the release button on the side of the seat and slide it forwards as far as possible, then lift off.

## **TUBE INSTALLATION**

- 1. Turn off the stop valve and flush out all of the water in the tank.
- 2. Disconnect the existing pipe connected to the tank valve.
- 3. Install the adapter onto the stop valve. Install the tube and existing pipe onto the adapter
- 4. Turn on the stop valve and turn on the bidet. Check all joints for leaks.
