How to make moves with your Smart Switch:

① **Schedule your motion sensor to sleep when you sleep.**

Go to **CYNC app** and set the response schedule under **room motion sensor.**

② **Automate your lights by enabling ambient light and motion detection.**

Go to **CYNC app** and enable the ambient light sensor under **room motion sensor.**

③ **Preset brightness levels.**

Dim switch to desired level, then turn off. Use **Dim** button instead of center on/off button to turn on lights at the preset level.

④ **Control other CYNC bulbs in the room with your switch.**

Go to **CYNC app.** Add bulbs and switches to a room under **create a room.** (sold separately)

Connect to your Alexa or Hey Google device to control your lights with your voice.

Try these voice commands:

Amazon Alexa

Alexa, turn off the living room.

Alexa, good morning.

Alexa, set kitchen to 50%.

Hey Google

Hey Google, turn on the lights.

Hey Google, set bedroom to 20%.

Hey Google, I'm leaving.
