- Made in Italy

SPECS

- Motor capacity: 600 CFM
- Controls: Electronic push buttons soft touch 4 speeds
- Lights: 2 X LED
- ETL approved

ACCESSORIES

- Charcoal filters included

PRODUCT PLUS

The LIBERTA Cooker Hood is designed to be discreet and efficient, and comes in stylish stainless steel to keep your kitchen odour free. Thanks to a powerful motor, this cooker hood will clear your kitchen of cooking fumes quickly and efficiently. The full range of the hood's functions are consolidated into a single electronic control, meaning settings can be monitored and adjusted with just one touch. It also features two LED lights to illuminate your cooking.

Baffle stainless steel anti-grease filters & grease collector

Baffle filters effectively capture grease and are dishwasher safe making it easier to have a clean and odor-free kitchen. The grease captured by the filters drains into the removable dishwasher safe grease collector.

Light indicator for grease filter maintenance

The cooker hood automatically informs you when the metal grease filter designed for trapping grease in the air requires cleaning. It is of utmost importance to clean these filters to ensure cooker hood components are protected and to pre-vent bad odours caused by a build-up of grease.

Light indicator for charcoal filter substitution

The cooker hood automatically informs you when the active carbon filter requires replacing. This filter is designed to absorb odours produced when cooking. It is of utmost im-portance to replace these filters regularly as they lose their efficiency and odour trapping performance.

Time delay shut-off

This function allows you to programme delayed cooker hood shutdown which, in the shortest time possible, provi-des the right level of air purity in your kitchen.
