assembly instructions

Friendly Tip: Take a deep breath going in. This may be a tricky part, but nothing too overwhelming. Just follow these steps to the T and the outcome will be worth it!

- ⓘ While assembling the product, tighten the bolts up to 50%. Once all parts are in place, only then fully tighten the bolts.

step 1:

First, place the seat (A) of the barstool on any table. Twist the steel plate on the base of the seat taking this image as reference.

step 2:

Next, align the leg (B) to the seat (A) so that the predrilled slots on both the seat and the leg line up with each other.

step 3:

Insert bolts (C) in the predrilled slots of the leg (B) and seat (A) to fix them in place.

step 4:

Tighten all points using allen-key (D).

step 5:

Finally, flip the assembled barstool back.

Voila! Your bar stool is now assembled and secure!
