

# Shelf Bracket

## FLOATING SHELF INSTALLATION

- ① Make sure your wall is of sound construction. Mount directly to a wall stud. Use the proper hardware for your wall construction.
- ② Using a pencil and level, draw a light line to locate the clamps mounting locations.
- ③ Fasten the clamps securely to the wall.
- ④ Place the shelf on the brackets. Holding the shelf in place, use a screwdriver to carefully tighten the screw located on the bottom of clamps.
