

Item Number: 5069611

WARNING (To reduce the risk of fire, electric shock, or personal injury):

1. We suggest installation by a **licensed electrician**.
2. Please read the instruction carefully and save it as you may need it at a later time.
3. Before you start, **NEVER** attempt any work without shutting off the electricity until the work is done. A) Go to the main fuse, or circuit breaker, box in your home. Place the main power switch in the **"OFF"** position. B) Place the wall switch in the **"OFF"** position.
4. Mounting surface should be clean, dry, flat, strong enough and 1/4" larger than the canopy on all side. Any gaps between the mounting surface and canopy exceeding 3/16" should be corrected as required.
5. Make sure that the ceiling or wall can stand the weight of the lamp before installation.
6. Make sure the voltage you are using is **120V**. The maximum wattage is **40W** per bulb.
7. Keep the lamp away from acidic and alkaline substances in case of damaging the surface of the lamp.
8. When replacing bulb, you should turn off or unplug the lamp and you must wait until it is cool as bulbs get hot quickly.
9. The safety instructions appearing in this manual are not meant to cover all possible conditions that may occur. It must be understood that common sense, caution and care must be used with any electrical products.

IMAGE FOR FINISHED PRODUCT:

TOOLS REQUIRED (NOT INCLUDED):

Before doing assembly and installation please prepare the needed tools as below picture

				
Ladder	Phillips head.flat blade screwdriver	Electrical tape	Pliers	Wire cutter/Stripper

PARTS TYPE & QTY INCLUDING:

- (B) Round mounting plate (1)
- (C) Green ground screw (1)
- (E) Canopy (1)
- (F) Loop (4)
- (G) Quick link (4)
- (H) Ball knob (2)
- (I) Chain (2)
- (J) Stem (2)
- (K) Iron frame (1)
- (L) Glass (4)
- (M) Threaded ring (4)

ACCESSORIES & QTY ENCLOSED:

- (A) Plastic wire connector (3)
- (D) Mounting screw (2)

ASSEMBLY & INSTALLATION

INSTRUCTIONS:

1. Carefully remove the fixture from the carton and check that all parts and accessories are included as shown in the above illustration.
2. **Turn off power**
Before you start the installation, NEVER attempt any work without shutting off the electricity until the work is done.
 - A) Go to the main fuse, or circuit breaker, box in your home. Place the main power switch in the "OFF" position.
 - B) Place the wall switch in the "OFF" position.

3. Make pre-installation

Step A1: By measuring, determine the correct number of links needed for a proper hanging height. Using the chain pliers, disconnect and discard the unwanted part.

Step A2: Pass the fixture wires through the stem (J), then screw the stems (J) onto the iron frame (K).

Attach the quick link (G) to connect the chain (I) and the loop (F) on the top of stems (J).

Step A3: Carefully weave the wires through the chain (I) (skip one blank link between every two links) and stop just when you reach the top of chain (I).

Gently pull the wires to ensure the wires are not stressed.

4. Attach the mounting plate (B) to outlet box with the mounting screws (D).

5. Make wire connections

Connect wires as below wires connecting shown. **PLEASE NOTE THAT GROUND WIRE IS BARE COPPER WIRE, NEVER CONNECT OTHER WIRES TO GROUND WIRES.**

Connect ground wires according to the below chart

Connect wires according to the below chart

Connect Black or Red Supply Wire to:	Connect White Supply Wire to:
Black	White
*Parallel cord (round & smooth)	*Parallel cord (square & ridged)
Clear,Brown,Gold or Black without tracer	Clear,Brown,Gold or Black with tracer
Insulated wire (other than green) with copper conductor	Insulated wire (other than green) with silver conductor

*Note: When parallel wires (SPT I & SPT II) are used. The neutral wire is square shaped or ridged and the other wire will be round in shape or smooth (see illus.)

Neutral Wire

Twist the wires together with plastic wire connector (A) until tightly joined, then carefully tuck all wires into the outlet box

6. Raise canopy (E) to ceiling and secure canopy (E) in place by tightening ball knobs (H) onto the pre-assembled mounting screw on the mounting plate (B).

Note: The canopy (E) should be snug against the ceiling and the knob balls (H). If not, adjust the length of the nipples on the mounting plate assembly (B) by unscrewing the pre-assembled hex nuts and then screwing the pre-assembled mounting screws in or out of the mounting plate (B) until the secure length is achieved. Tighten the pre-assembled hex nuts and back to step 6.

7. Install bulb (Not included) (Please do not exceed the maximum wattage recommended on the socket.)
Screw the glass (L) onto the threaded ring (M).

8. Check everything is already installed properly, then you could turn on the light. Enjoy!

CLEANING

To clean, wipe the fixture with a soft cloth. Clean glass with a mild cleaner (such as mild soap). Do not use abrasive materials such as scouring pads or powders, steel wool or abrasive paper.

ORDERING PARTS

Keep this sheet for future reference in case you need to order replacement parts. All parts for this fixture can be ordered from the place of purchase. Be sure to use exact wording from illustration when ordering parts.
