installation instructions

Take a deep breath going in.
This is easy even if you are not
used to tools. Just follow these
steps to the T, and the
outcome will be
worth it!

step 1:

Place the shelf on the wall and put a spirit level on it to check alignment. Adjust if needed.

step 2:

Once the shelf is straight aligned to the wall, make a line running from its one end to the other using a pencil.

step 3:

Next, measure the distance between the two keyholes using a measuring tool.

step 4:

Place the measuring tool against the parallel line on the wall and make two marks on it taking this image as reference.

step 5:

Drill holes at the points you just marked.

step 6:

Now, insert the wall plugs (B) using a hammer.

step 5:

Then, insert the screws (C) using a screwdriver.

step 6:

Place the keyhole slots over the screws.

Voila! Your shelf is now installed and secure!
