

How to use your Homestead Slab Door:

Homestead's Panel Shaker Door presents a fusion of sturdy wood with flexible use to add that touch of class to enhance your home. Manufactured with Solid Wood Frames and a smooth MDF panel complements any room or closet. Doors are pre-primed and ready for painting in any color to match your taste and décor. Add the hardware of your choice to create a hinged door, bifold door, barn door, or for any residential indoor use.

Points to keep in mind:

- The door is reversible and can be installed on top, left or right sides.
- The door is trimmable up to ½ inch.
- Door features a primed smooth finish ready for painting.
- Add your own hardware; hardware is not included.
- Door features a solid core with a solid wood frame and engineered wood face.
- The door is moisture resistant.
