This generator includes a built-in Carbon Monoxide Warning Alert! The generator will automatically shut-off if dangerous levels of Carbon Monoxide is detected.

WARNING Carbon monoxide (also known as CO) can be dangerous for humans and pets. Carbon monoxide poisoning can lead to death in a very short time. It is called "the silent killer" because it is odorless, tasteless and invisible: you may be exposed without knowing it.

NOTE: The indicator will light RED and the engine will shutdown if dangerous Carbon Monoxide levels are detected. The engine will not restart for 5 minutes. If an error in the carbon monoxide system is detected, the indicator will blink YELLOW and the engine will shutdown for five minutes.
