

ALUMINUM-FRAMED LATTICE ACCENT INSTALLATION TIPS

Items You May Need

- Drill
- Anchors
- Screws
- Anchors
- Screwdriver
- Pliers

Installation Tips & Important Information

- Always wear safety glasses and gloves when DIYing.
- Keep lattice screen secure at all times to prevent damage from tipping or falling.
- Lattice must be attached to a self-supporting structure or frame.
- Secure screen at each corner to prevent shifting.
- If mounting to a wall, use anchors appropriate for the wall material.
- If suspending, attach suspension device to the frame rather than to the lattice.
- Do not install screen in a horizontal application. The lattice insert is not load-bearing, and without proper support, it may sag, ripple or retain heat. Do not use in roofing applications, as weight from debris such as leaves, snow, etc. can cause warping and damage.
- Carefully measure your project dimensions, and mark where any mounts may be needed.
- Use rust-resistant screws and hardware for the best long-term result.
- Pre-drill any holes needed to mount screen using a 1/4" drill bit and fasten with screws. Do not overtighten screws.

Finishing

- For interior and exterior use.
- Deckorators lattice is a nonporous material. Coatings such as paints and stains do not adhere well to the surface.
