application

PENNINGTON®

LAWN BOOSTER^{II}

with *Smart Seed*®

Follow these guidelines to give your lawn the **BOOST** it deserves

Siga estas guías para obtener un césped denso y frondoso

First step is to remove unwanted weeds. Then, mow your lawn to about 1". Remove all debris and dead grass with a rake, which will also loosen up the soil.

El primer paso es cortar el césped a la altura más corta posible. Retire todos los desechos y la hierba muerta con un rastrillo, que también relajará la tierra.

Spread Pennington® Lawn Booster^{II} evenly using the spreader settings below.

Extienda Pennington® Lawn Booster de manera uniforme usando la configuración del esparcidor a continuación.

THE MOST IMPORTANT STEP! Water the applied area daily (or even twice a day) to keep the soil moist until grass sprouts and reaches desired mowing height.

¡El paso más importante! Riegue el área aplicada diariamente (o incluso dos veces al día) para mantener la tierra húmeda hasta que la hierba brote y alcance la altura de corte deseada.

Apply this product in the early Spring and Fall when temperatures are moderate. Do not apply pre-emergent until at least 13 weeks after planting. It will prevent seed from germinating.

Apply up to 8 lbs. per 1,000 square feet.

SPREADER SETTINGS

SPREADER	OVERSEEDING & THIN AREAS
Scotts® Wizz™ Spreader	5.75
Scotts® Turf Builder® Classic Drop Spreader	9.5
Scotts® Turf Builder® Edgeguard® DLX Broadcast Spreader	8.5

BEFORE Lawn Booster

AFTER Lawn Booster

Four months after product application. Results are subject to proper care, especially daily watering. Results will vary based on initial conditions. Results shown here include application of pre-emergent 13 weeks after planting.

ALL-IN-ONE SOLUTION

Pennington® Lawn Booster^{II} is an all in one product for reclaiming your turf – giving you a Pennington Lawn you are proud to call your own.

MADE WITH

PENNINGTON® SMART SEED®

Smart Seed® premium grass seed is pure-bred, drought tolerant seed that will save you up to 30% more water year over year for the entire life of your lawn versus ordinary grass seed.

FERTILIZER

Premium fertilizer will continuously release nutrients for up to eight weeks. This will improve the overall texture and color of your lawn.

SOIL ENHANCER

Improves the condition of the soil to help grass take root and flourish.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Causes substantial but temporary eye irritation. Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes or clothing.

Avoid breathing dust from treated seed. Work upwind while loading planters. Workers may choose to wear a dust mask. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

Store away from food and feedstuffs. Do not allow children, pets or livestock to have access to treated seeds. NOTICE: The color green as applied to grass seed is a registered trademark that is registered in the U.S. Patent Trademark Office by Pennington Seed, Inc. Pennington uses the safest colorant available.

Apply only to actively growing turf. Do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn/garden, and sweep any product that lands on the driveway, sidewalk, or street, back onto your lawn/garden. Check with your local cooperative extension agency to obtain specific information on local turf best management practices. Check with your county or city government to determine if there are local regulations for fertilizer use.

NOTICE: Arbitration/conciliation/mediation required by several states. Under the seed laws of several states, arbitration, mediation, or conciliation is required as a prerequisite to maintaining a legal action based upon the failure of seed, to which this notice is attached, to produce as represented. The consumer shall file a complaint (sworn for FL, IN, MS, MT, SC, TX, WA; signed only GA, CA, ID, ND, SD) along with the required filing fee (where applicable) with the commissioner/director/secretary of agriculture, seed commissioner (IN), or chief agricultural officer within such a time as to permit inspection of the crops, plants, or trees by the designated agency and the seedsman from whom the seed was purchased. A copy of the complaint shall be sent to the seller by certified or registered mail or as otherwise provided by state statute.

IMPORTANT: Applying weed control products to grass prior to seeding can affect the seeds' ability to grow. Be sure to read and follow all manufacturer's recommendations and application instructions prior to applying any weed control products and prior to seeding. Additionally, do not apply any weed control products to newly seeded areas until the grass is established and has been mowed at least 3 or 4 times. Once newly seeded areas are established, you can begin a regular feeding schedule.

*Compared to ordinary grass seed
