

Single Unit LG WashTower™ with Center Control™
5.0 cu. ft. Front Load Washer and 7.8 cu. ft. Electric
Ventless Heat Pump Dryer

- Mega Capacity 5.0 cu. ft. Washer and 7.8 cu. ft. Dryer
Single Unit Ventless WashTower™ Design
Advanced Washing: TurboWash® 360°
Built-In Intelligence: AI Fabric Sensor / Infrared Sensor / Smart Pairing™
Dual Inverter HeatPump™ Technology & Inverter Direct Drive Motor System

AVAILABLE COLORS

- WHITE
BLACK STEEL

Proactive Smart Alerts to Keep
Your Appliances Running Smoothly

ThinQ Care

- Preventative Alerts help you stay a step ahead of potential issues to find proactive solutions before problems arise.
- Avoid preventable repairs and service calls with real-time diagnostics for a hassle-free experience.
- Integrated within LG's ThinQ app—a smart home hub for managing your smart devices and appliances.

DIMENSION / CLEARANCES

DIMENSIONS

| | |
|-----------------------------------|-----------------------------|
| Product (WxHxD) | 27" x 74 3/8" x 32 3/4" |
| Depth with Door Open | 57 1/2" |
| Carton Dimensions (WxHxD) | 29 1/4" x 77 1/2" x 33 1/4" |
| Approx. Weight (Product / Carton) | 353.0 lbs / 380.0 lbs |

DIMENSION / CLEARANCES

To ensure sufficient clearance for water inlet hoses, drain hose and airflow, allow minimum clearances of at least 1" (2.5 cm) at the sides and 4" (10 cm) behind the appliance. Be sure to allow for wall, door, or floor moldings that may increase the required clearances.

DIMENSION / CLEARANCES

Closet Ventilation Requirements

Closets with doors must have both an upper and lower vent to prevent heat and moisture buildup in the closet. One upper vent opening with a minimum opening of 48 sq. in. (310 cm²) must be installed no lower than 6 feet above the floor. One lower vent opening with a minimum opening of 24 sq. in. (155 cm²) must be installed no more than one foot above the floor. Install vent grills in the door or cut down the door at the top and bottom to form openings. Louvered doors with equivalent ventilation openings are also acceptable.

CONNECTING THE WATER INLET HOSE

- Check the fittings and seals. Inspect the threaded fitting on each hose and make sure there is a rubber seal ❶ in place in both ends of each hose to prevent leaking.
- Connect the water inlet hoses to the hot and cold water faucets tightly by hand and then tighten another 2/3 turn with pliers.
- Connect the blue hose to the cold water faucet and the red hose to the hot water faucet.

- ❶ Terminal Block Access Panel
- ❷ Dryer Drain Outlet (behind stacking bracket)
- ❸ Hot and Cold Water Inlets
- ❹ Shipping Bolts
- ❺ Drain Hose (for Washer)
- ❻ Power Cord (for Washer)
