SPECIFICATIONS

Maximize under-sink storage and streamline installation with Dearborn® Space-Saving Sink Drain Kits. Available in four versatile configurations for single- and double-bowl sinks, these innovative kits can be easily adjusted for various sink depths, widths and drain offsets for a professional-grade installation every time. These kits utilize traditional rigid tubular components with telescoping functionality, ensuring a leak-free, code compliant solution with the added benefit of extra space under the sink. This unmatched flexibility gives installers the confidence to address remodel challenges, making Space-Saving Sink Drain Kits ideal for new construction and upgrades alike. Dearborn® is known for providing superior quality and products designed with the plumber in mind.

DESCRIPTION

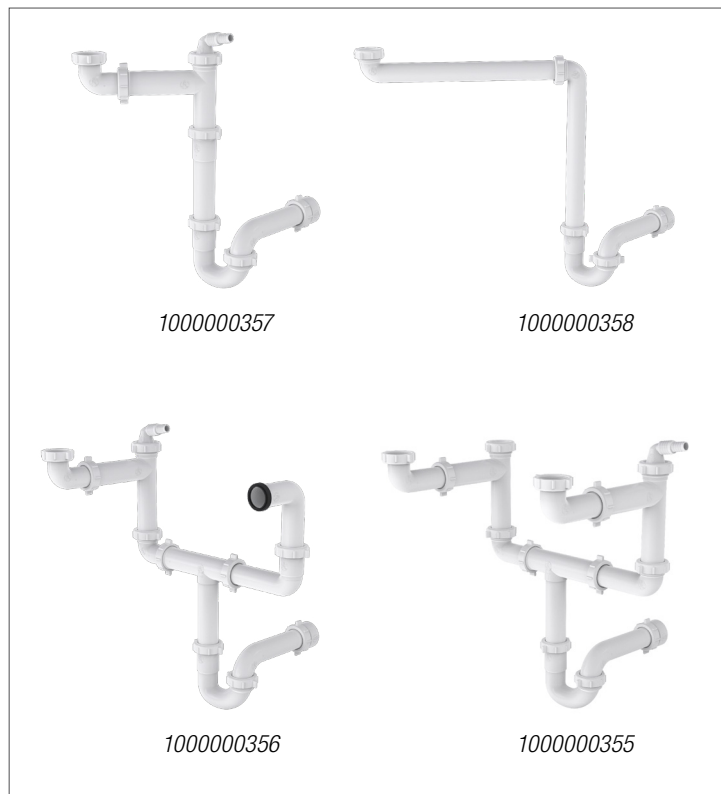

- Made of polypropylene plastic
- Available in single and double bowl sink drain configurations
- Telescoping components adjust from 7 in.–12 in. to accommodate varying heights, depths, and widths both horizontally and vertically (Kitchen configurations only)
