CARING FOR FURNITURE WITH A PAINTED FINISH

Furniture with a painted finish can add charm and personality to your living space. To ensure your painted furniture retains its beauty and durability, follow these care and maintenance guidelines:

REGULAR DUSTING

Dust your painted furniture regularly with a soft, dry cloth or a feather duster. This prevents the accumulation of dust and dirt that can dull the finish.

REMOVE STAINS PROMPTLY

Address spills and stains promptly by blotting them with a clean, damp cloth. Avoid rubbing, as this can spread the stain and damage the paint.

GENTLE CLEANING

For routine cleaning, use a damp cloth or sponge with mild, soapy water. Avoid abrasive scrubbers or harsh chemicals that can damage the paint. Wipe the furniture in the direction of the grain or brush strokes of the paint, if visible.

AVOID EXCESSIVE MOISTURE

Protect your painted furniture from excessive moisture, which can cause the paint to bubble or peel. Use coasters, placematts, and tablecloths to shield it from moisture during use.

SUN PROTECTION

Position your painted furniture away from direct sunlight or use window coverings to protect it. Prolonged sun exposure can cause the paint to fade or crack.

PREVENT SCRATCHES

Be cautious when moving objects on painted surfaces. Lift items instead of dragging them to prevent scratches. Place felt pads under the legs of chairs, tables, and other furniture to avoid scratching the floor when moving the furniture.

By following these care and maintenance tips, you can ensure that your painted furniture continues to enhance your living space with its unique style and character for years to come. Proper care will help preserve the paint finish and extend the life of your furniture.
