

BUILD WITHOUT LIMITS

FORTRESS® DECKING

FortressBP.com

DON'T WAIT FOR BETTER. BUILD IT.

Your home is your castle. Defend it against run-of-the mill decking and boring boards. Stand out with bold, beautiful, built-to-last solutions from Fortress Building Products.

Fortress® has everything you need to create your ideal Outdurable Living™ space. Our total solution gives you revolutionary products that are resilient, refined and really easy to care for. We help you make the great outdoors even greater by continually pushing the boundaries.

It's smarter innovation. It's the Fortress way.

**DIFFERENT
IS BEAUTIFUL**

Fortress® decking is causing a revolution by pioneering an evolution. We took a fresh look at the decking industry and then engineered a total solution of beautiful, innovative profiles unlike any others.

Our unique manufacturing process creates decking that is more dense, more true, and more scratch and slip resistant. This attention to detail also allows us to create shapes, styles and aesthetics that the competition can't match.

Fortress decking delivers two distinct lines that will change the way you bring your vision to life. This complete range of styles and prices gives you the freedom to design a deck with unequalled looks and unrivaled durability. By thinking differently, we all build better.

THE WORLD NEEDS REBELS

To change the world, first you have to conquer it. Fortress® decking exists because no other products could perform in the harsh climate of South Africa, where it all began. After defending against dramatic temperature swings and enduring some of the world's toughest ultraviolet conditions, our decking grew to become the leading product in Europe, and the fastest growing deck brand globally. Our capped decking materials have gone toe-to-toe with every climate imaginable and never been defeated.

Now advancing throughout North America, Fortress decking is already proven to help your deck look and perform out of this world.

INFINITY I-SERIES

COMPOSITE DECKING

CUT COST, NOT QUALITY

Fortress® set out to prove that cost-effective decking could still deliver the strength, usability and beauty of its premium cousins. Well, we did that and more.

Our new Infinity I-Series decking is 40% lighter, while keeping the same stiffness and mechanical properties. This revolutionary design uses the historically proven I-beam shape, which is uniquely capable of handling heavy loads.

AVAILABLE COLORS

KEY FEATURES

- Natural hardwood look (repeated grain pattern is a thing of the past!)
- A cost-effective deck option without sacrificing performance
- 2x the strength of competitive options
- Available in a wide range of earth-tone colors
- Advanced geometric design for improved mechanical properties
- Unprecedented span rating
- Improved heat dissipation
- Easy to handle and carry
- Lightweight at 1.85 pounds per foot
- Slip and splinter resistant
- Enhanced ventilation
- Rigid under foot at 16" o.c.

DECKING PROFILES

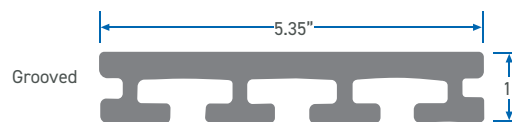

DECK BOARDS

Grooved Infinity I-Series boards install with hidden clips beneath the deck surface. Square Infinity I-Series boards install with surface mounted color matched screws.

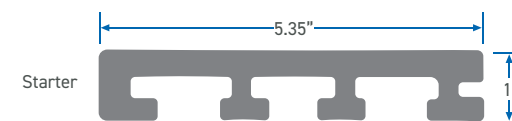

Grooved Board

Specs: 5.35" x 1" x 12'/16'/20'

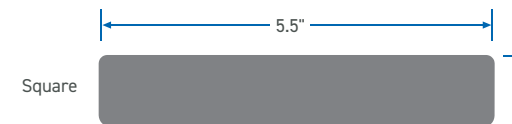

Starter Board

Specs: 5.35" x 1" x 16'

Square Board

Specs: 5.5" x 1" x 20'

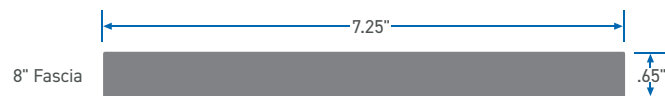

FASCIA BOARDS

Brushed surface fascia boards used for trim around decking and stair risers.

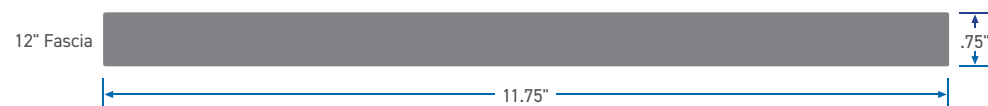

8" Fascia/Riser

Specs: .65" x 7.25" x 12'

12" Fascia

Specs: .75" x 11.75" x 12'

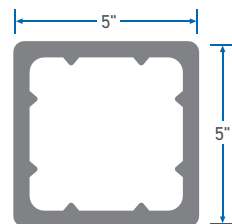

ACCESSORIES

Post Sleeve

Specs: 5" x 5" x 40" / 120"

Modern Rail

Specs: 1.5" x 3.5" x 96"

Apex™

FORTRESS® APEX™ PVC DECKING

THE PEAK OF BEAUTY AND PERFORMANCE

Fortress® decking imagined a radical idea. Could we build a PVC decking series that defies expectations? As a result, our Apex™ PVC decking reaches new heights in value, quality and aesthetics. Fortress Apex PVC decking uses a proprietary tri-extrusion process that delivers the beautiful look of tropical hardwoods. In fact, it's been called, "the best board I've ever seen" by numerous customers.

The foam core reinforced with bamboo is 45% lighter than composite decking making it easy to work with. It expands and contracts about 25% less than other PVC deck boards providing more consistent install, gaps and looks. Each board is encapsulated in an acrylic polymer that delivers outstanding UV performance, so your deck won't fade like other PVC products; and it provides the highest non-slip rating. So rise up, and reach the apex of decking.

45%

OUTDURABLE LIVING™

Fortress® delivers the total solution for the backyard and beyond. In fact, we offer such a broad array of exceptional products, we had to create an entirely new category – Outdurable Living™. Decking, railing, fencing, framing, fasteners, accessories and cladding are just the beginning. Our extensive family of products all work in harmony or individually to create beautiful, long-lasting spaces.

HULK FASTENERS™ – WHERE TECH MEETS TOUGH.

A different kind of deck needs a different kind of fastener. HULK products were developed using state-of-the-art technology and manufacturing methods. They work in perfect synergy with our deck boards and many other composites. HULK products are extremely durable and corrosion resistant for long term applications. HULK screws use an advanced bit lock system, which maximizes torque transfer for easier installation. There are options for steel or wood framing.

TYPE	CLIP SCREW	SURFACE MOUNT SCREW	HI STRENGTH CARBON STEEL	HCTO (Ceramic Treated)	STAINLESS STEEL	UNITS PER BOX	SCREW	USE
HULK Stainless Steel Hidden Fastener				●	●	500		HULK Hidden Fastener

HULK Z-Tip Fascia/Trim Screw Epoxy Coated Steel			●			75		Color match Fascia/Trim screw used for metal framing

Note: Every HULK box contains a fastening bit.

UNMATCHED YET UNNECESSARY

25-YEAR LIMITED MANUFACTURER WARRANTY

When you choose decking products that are this tough, you can expect them to last a long, long time. But just in case, Fortress® offers a twenty-five year limited manufacturer warranty that protects our products and the people who buy them. We don't just stand behind our work – we also stand by your side.

FREEDOM IS **WORRY-FREE**

No sanding. No staining. No painting. No problem. Fortress decking requires a heck of a lot less maintenance compared to wood. To keep your deck looking great for many backyard barbecues to come, simply give it an occasional sweep and hose down with soapy water from time to time. Feel free to spend your time enjoying your deck, not maintaining it.

BUILDING A BETTER WORLD

At Fortress®, we believe in leading global change in the way people build and live. That means giving back to the people and communities we impact. It means staying ahead of the curve regarding safety, security and industry standards. And it means building a workplace where our team is inspired and supported. When the world is a better place, we all win.

This resilient spirit extends to the sustainability of our products. All of our decking features a high-density bamboo core, which is naturally more water resistant and blends perfectly with the recycled plastic components in our state-of-the-art compound. This composition makes our products environmentally friendly and free of the toxic preservatives typically used to treat natural wood.

TEXAS-SIZED SUPPORT

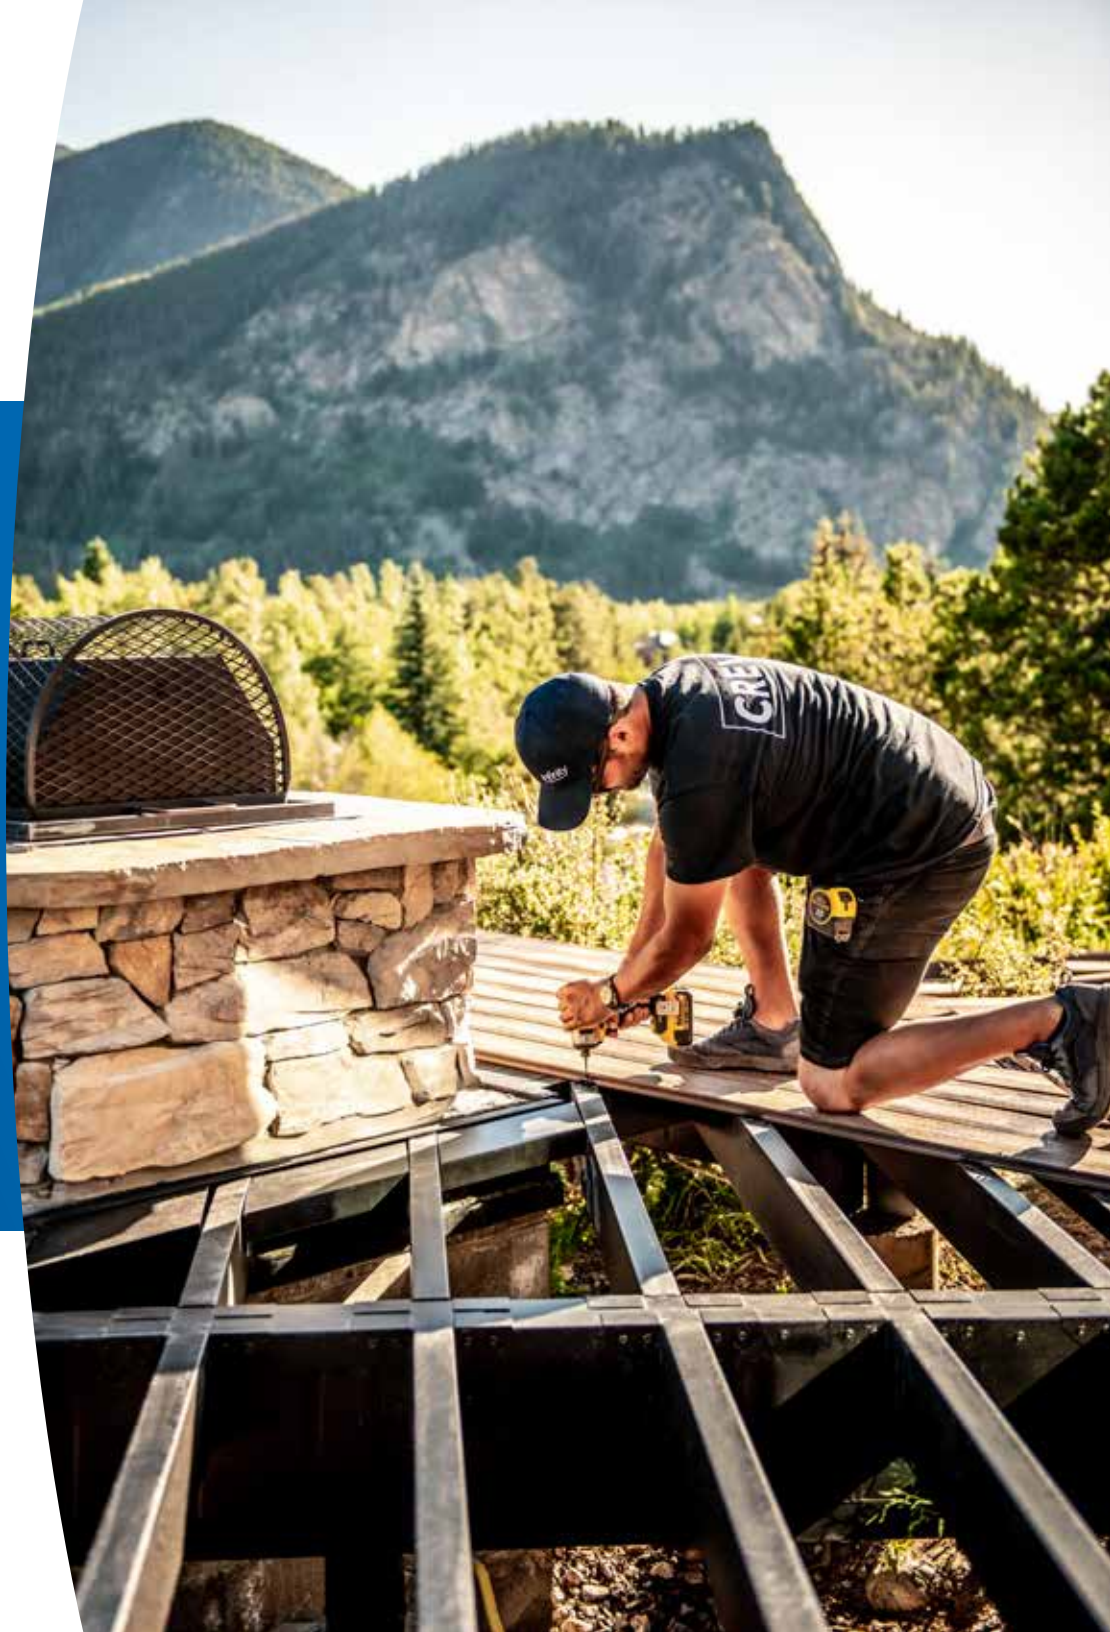

Where we come from, everything is bigger... including our level of service. We value the relationships with the professionals in our industry and the families that ultimately own our products.

Should there ever be a question or topic that we can help you with, please call us during business hours to talk to a real person at **(866) 323-4766** or email at **sales@fortressbp.com** and you will receive a prompt reply.

TO SUPPORT & DEFEND

FORTRESS® FRAMING

Why build a 25-year deck on a wood frame that rots? Our Evolution steel deck framing and stair system is the next evolution in decking. If you know how to frame with wood, you can frame with steel, even on curves. The interlocking joist and ledger system lets you build sturdy, safe decks with less effort. Our powder-coated finish provides increased corrosion resistance and a more finished look. Discover a smarter steel framing system designed by deck builders, for deck builders.

RETHINK THE RAIL

FORTRESS® RAILING

Fortress® is one of the strongest brands in the railing industry because we are always pushing to the leading edge. Our products are built on the strength of more than 40 years of innovation. Whether you're looking for aluminum, steel, or a different aesthetic entirely, you can feel secure that with Fortress, your imagination won't be boxed in.

JOIN THE REVOLUTION.
