

Assembling instruction

Assembling steps:

- 1, This lamp uses two types of square tubes. Please connect the smaller square tube to the larger one using the provided screws, and pay attention to the direction of the connection holes.
- 2, Please connect the I-shaped welded part with the small square frame using the provided screws.
Make sure to use the square frame with two holes on its side.
- 3, Connect the lamp holder and lamp base together using the provided nuts, and connect the wires properly at the same time.
- 4, Connect the lamp base cover together using the provided cap nuts.
- 5, Connect the provided straight tube to the complete lamp holder assembly.
- 6, Connect the base and the lamp body together using the provided straight tube.
- 7, Connect the wires with the power wires correctly.
- 8, Fix the canopy to the plate board with the screws and the ends nut.
- 9, Put in the bulbs, then turn on the light to test.

Notes:

1. This light can only be used indoors;
2. Cut off the power when assembling;
3. Cut off the power when replacing the light source;

Voltage: AC 85-165V
Frequency: 50/60Hz
Bulb base: E26

Cautions:

Please do not use gasoline, alcohol, anti-toxic agents and other corrosive drugs to wipe the lamps, otherwise it will damage the lamps.

Cut off the power when the lamp is in repair or maintenance.
