DR. EARTH®

Acid Lovers®

AZALEA, CAMELLIA, RHODODENDRON & MAPLE FERTILIZER

Working For A Better Tomorrow

Innovation is the engine of Dr. Earth®, creating cutting-edge natural and organic garden-friendly products. With our company's total commitment to clean and healthy gardening, we pursue perfection in every Dr. Earth® product. We take immense pride in everything that leaves our facility. As a member of the Sustainable Food Trade Association, our mission is to operate a sustainable business model to preserve our planet. We are committed to upcycling would-be food grade waste into organic fertilizers and soils. This is the highest level of organics and it is our guiding light. We are working for a better tomorrow and the reason behind all of it is you, our customers.

Trubiotic® For Soils: TruBiotic® is a broad spectrum biological soil inoculant. It consists of beneficial soil microbes and mycorrhizal fungi designed to bring life to all soil types in backyard gardens or container plants.

Always mix fertilizer with the soil for maximum results

FERTILIZER TEA

Mix 2 pounds, or 5 cups for every 5 gallons of water. Let the mixture set for 24 hours. Strain well and mulch all the solids around the root zone. The liquid portion (tea) can be applied at 1 to 2 cups for shrubs, or 2 to 4 cups for larger plants. Use full strength to foliar feed & for deep root feeding of all plants.

NOTE: Dogs love Dr. Earth because it contains food grade ingredients, but it's not a dog food nor should you allow your dog to eat it. Supervise your dog to prevent ingestion. Mix the fertilizer well with the soil and water it in to discourage them from eating it.

Guaranteed by Dr. Earth, Inc.
Except for the manufacturer's express warranties and guarantees of this product, to the full extent permissible by applicable law, the company disclaims all other warranties, including, but not limited to, implied warranties of merchantability and fitness for a particular purpose. The company will not be liable for any damages of any kind arising from the use of the product, including but not limited to direct, indirect, incidental, punitive and consequential damages. This limitation of liability shall be applicable to any claims regardless of legal theory, and whether such legal theory involves tort, negligence, contractual liability or otherwise. Your exclusive remedy shall be limited to a refund of the purchase price for the product. Certain state laws may not allow limitations on implied warranties or the exclusion or limitation of certain damages. If these laws apply to you, some or all of the above disclaimers, exclusions or limitations may not apply to you, and you may have additional rights.

ITEM #703P

RHODODENDRONS, AZALEAS, CAMELLIAS & MAPLES

New Plantings:

Before you plant, add 2 cups per ½ cubic foot (approx. 5 gallons) of soil that will be added to the planting hole. Once planting is completed, add another 2 cups around the plant and mix into the soil. Water thoroughly. Apply every 8 weeks during the growing season.

Established Plants:

Use 2 cups for every inch of trunk diameter (measured at 4" – 6" above soil line). Work into the soil gently inside of the drip line. Water thoroughly.

When To Apply:

Every 2 months throughout the growing season.

CONTAINER PLANTS

New Plantings:

When potting plants, mix 1 tablespoon to each quart of potting medium, or ½ cup per ½ cubic foot (approx. 5 gallons) of soil. Mix with soil. Water thoroughly. Apply every other month.

Established Plants:

Sprinkle 2 tablespoons for every gallon of potting soil. Use ½ cup per 5 gallon container. Mix into the soil around the plant and water thoroughly.

When To Apply:

Every other month year-round.

HYDRANGEAS, EVERGREENS, BERRIES, OTHER ACID LOVERS

New Plantings:

Before you plant, add 2 cups per ½ cubic foot (approx. 5 gallons) of soil that will be added to the planting hole. Once planting is completed, add an additional 1 cup around the plant and mix into the soil. Water thoroughly.

Established Plants:

Use 2 cups for every inch of trunk diameter (measured at 4" to 6" above the soil line). Work into the soil gently inside of the drip line. Water thoroughly.

When To Apply:

Every 2 months throughout the growing season.

GUARANTEED ANALYSIS:

Total Nitrogen (N).....	3%
3% Water Insoluble Nitrogen	
Available Phosphate (P ₂ O ₅).....	4%
Soluble Potash (K ₂ O).....	3%
Sulfur (S).....	7.5%

DERIVED FROM:

Fishbone meal, alfalfa meal, fish meal, elemental sulfur, potassium sulfate, kelp meal and kelp flour.

STORE: in a dry cool place.

Avoid direct sunlight.

EXPIRATION DATE:

Best if used before:

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS:

	Colony Forming Units (CFU) / gram
Bacillus amyloliquefaciens	3,500,000
Bacillus licheniformis	3,500,000
Bacillus megaterium.....	1,250,000
Bacillus pumilus.....	1,250,000
Bacillus subtilis	1,250,000

MYCORRHIZAE:

Endomycorrhizae (VAM):	Propagules/gram	Ectomycorrhizae:	Propagules/gram
Glomus aggregatum.....	0.16	Laccaria laccata	37.12
Glomus clarum	0.16	Laccaria bicolor.....	37.12
