

How to Measure a Storm Door.

Don't get intimidated when it comes to preparing for your new storm door. We'll take you step-by-step through the measurements you'll need to ensure a perfect fit.

Measure the opening width (horizontally) as shown below. Take three measurements, one across the top, middle and bottom of the door (A, B, C). Record the narrowest dimension. Measure the opening height (vertically). Record the shortest dimension. Make your measurements and bring to your nearest Lowe's store.

Record Your Measurements			
A Width	B Width	C Width	D Height

Door Sizes	Min-Max Doorway Width	Min-Max Doorway Height
32" x 81"	31 7/8" to 32 3/8"	80" to 81"
36" x 81"	35 7/8" to 36 3/8"	
30" x 81"	29 7/8" to 30 3/8"	
34" x 81"	33 7/8" to 34 3/8"	

*30 and 34 in. widths available in select models
