## Product Description

**Our Starter Trap Kit has everything you need to kill and keep killing rodents, with none of the extra bells and whistles.** No snapped fingers with this trap - it'll reset itself, over and over again for years, so it's always ready for the next one. Simply mount it to a wall, post or tree, screw in the CO<sub>2</sub> canister, pop your rodent's favourite food into the DIY lure basket, and it'll take care of the rest. Like all our traps it comes with an A-Class Humane Rating, and if you choose to use Goodnature Paste, they're 100% toxin-free, making it safe for pets, kids, and mother nature. Make snap traps and nasty bait a thing of the past, and switch to a Goodnature Starter Trap Kit.

- ✓ 1 mounting option
- ✓ 48 CO<sub>2</sub>-powered kills
- ✓ 0 months self-dispensing lure
- X No smartphone app

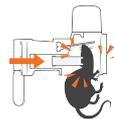

## How the Starter Trap Kit works

### 1. Sniff

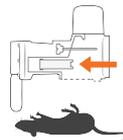

Non-toxic paste attracts rodents into the trap.

### 2. Kapow!

Rodent moves the trigger to get to the paste, firing the trap

### 3. Self reset!

The trap clears and resets immediately after an A-Class humane kill.

### 4. Sniff

Paste continues to attract pests for 6 months
