MAHOGANY COLOR CABINET**

Silver Marble Shell

Mahogany Cabinet

Listed & Factory Pre-Tested

SOFTTOUCH™ CONTROLS

State-of-the-art digital electronic control with LCD temperature and filtration readout. All functions are located at your fingertips.

ENERGY SAVER SYSTEM™

Heat is generated by the spa's power equipment inside the cabinet. This heated air is captured and returned to the spa's water. This continually helps maintain the water temperature without running the heater as often. The heat recovery system saves you money by reducing electrical cost.

MAINTENANCE-FREE WEATHER GUARD™ CABINET

Our synthetic cabinets with reversible panels are known for their rich, beautiful appearance and long lasting durability. Fully removable access panels make service a breeze.

HIGH POWER JETS

A harmonic balance of jets and water-flow engineered to provide maximum hydrotherapy, style and comfort.

FILTRATION SYSTEM

Efficient weir skimmer and micro filtration system keep your spa comfortably fresh and sparkling clean.

PATENTED

DURA-BOND™

This four layer, patented strengthening process combines the beauty of Lucite Plus Acrylic™ with a layer of ABS for shell strength and integrity. Then a double strengthening material is applied. This high density material has all the strengthening properties of fiberglass without the environmental concerns.

SHELL STRENGTHENING SYSTEM

1. Acrylic Plus™
2. ABS
3. Dura-Bond™ with Foam Insulation
4. Polyethylene Foam
5. Dura-Frame™ with Synthetic Reversible Panels
6. Polystyrene Insulation
7. Radiant Foil Insulation
8. Thermal Air Barrier
9. Moisture-Resistant Polyethylene Flooring

THERMAL SPA COVER

A durable, lockable barrier from the elements provides money saving thermal protection along with safety and security when spa is not in use. Your spa cover will accent your cabinet color to complete the stylish look of your spa.
