

SMART BUTTON

Iris Smart Button gives convenient access
to control other connected devices.

LOWE'S ITEM #
690401

MODEL
3460-L

KEY FEATURES

Easy Mounting Options:

The Iris Smart Button can be installed using either adhesive strips or mounting screws (both included).

Remove-to-Pair Join Process:

All Iris sensors feature "remove-to-pair" joining. The device ships with the battery pre-installed and all that is needed to begin the joining process is to pull out a small plastic tab from the bottom of the device. There is nothing for the user to take apart or put back together.

Superior Output Power & Over-the-Air Updates:

The Iris Smart Button supports over-the-air updates providing for seamless upgrades and feature additions without the need for any user interaction.

GETTING STARTED

Step 1 In the Iris by Lowe's App, select the + sign and then "Devices."

Step 2 Remove the battery tab labeled "Remove to Pair". The hub will beep when pairing is complete.

USE CASE

- Control smart bulbs from anywhere in the home
- Trigger "welcome" or "goodbye" Scenes
- Arm your security system with ease
- Automate lights, fans, and blinds

COMPATIBILITY

The Lowe's IRIS Smart Button is fully ZigBee HA 1.2 certified and will work with other open ZigBee HA 1.2-certified systems.

APPROVALS (ENGLISH)

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Conforms to FCC Part 15B

Contains FCC ID: T3L-SS011

IC: 12192A-SS011

Industry Canada licence-exempt RSS Standards. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.

This equipment complies with FCC and IC radiation exposure limits set forth for an uncontrolled environment. This equipment is in direct contact with the body of the user under normal operating conditions. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Changes or modifications not expressly approved by Lowes, Inc. could void the user's authority to operate the equipment.

APPROVALS (FRANÇAIS)

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Conformément à la réglementation d'Industrie Canada, le présent émetteur radio peut fonctionner avec une antenne d'un type et d'un gain maximal (ou inférieur) approuvé pour l'émetteur par Industrie Canada. Dans le but de réduire les risques de brouillage radioélectrique à l'intention des autres utilisateurs, il faut choisir le type d'antenne et son gain de sorte que la puissance isotrope rayonnée équivalente (p.i.r.e.) ne dépasse pas l'intensité nécessaire à l'établissement d'une communication satisfaisante.

TROUBLESHOOTING

Step 1

Open the battery tray on the side of the device. Remove battery and replace with a new CR-2450 battery. Reassemble and test operation.

Step 2

Remove battery. While holding down the button, reinsert battery and continue to hold for two seconds, then release button. This will factory reset the device. Repeat the "Getting Started" steps to rejoin the ZigBee network.

TECHNICAL SPECIFICATIONS

Power

Rated: 3V

Battery: CR-2450 (1x)

Battery Life: Up to 2 years

Environmental

Operating Temperature: 0° to 40°C

Shipping/Storage

Temperature: -20° to 50°C

Humidity Range: 0 to 90% RH.
(non-condensing)

Approvals

Wireless RF Protocol

Protocol: ZigBee HA 1.2

TX Strength: +3 dBm

RF Channels: 16

Range: 130 ft. (40m) LOS
