

5600 Modular Egress Window Well

Installs in a snap.

The 5600 offers many custom possibilities. You're not limited to a set height—make your well as short or as high as you need. A typical installation uses four sections and is made easy with simple, snap-together construction. The 5600 is designed for windows up to 4-foot wide. Each section weighs only 24 pounds and is easy to transport.
