

Regulations & Compliance

Fcc Statement

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

ISED Regulatory Compliance

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes :

1. L'appareil ne doit pas produire de brouillage;
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

RF Exposure Compliance

This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Cet équipement est conforme aux limites d'exposition aux radiations FCC/IC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 20 cm entre le radiateur et votre corps.

Quick Start Guide

Get to know your Security Light Camera

Setup your Security Light Camera

- 1** Scan QR code or visit www.toucan-smarthome.com/pages/smarthomeapp

Available at Apple® App Store® and Google Play™

- 2**   Open the Toucan Smart Home App and tap the + to add a camera

- 3**  Plug the included power supply into a wall outlet and connect the other end to the camera.

- 4**  Follow the In-App Instructions and voice prompts to complete setup.

LED Description

Flashing BLUE	Setup Mode
Flashing PURPLE	Connecting to cloud server, DO NOT TURN OFF POWER
Flashing RED	Connection Failed

Install your Security Light Camera

- For this you will need a power drill with a 1/4" drill bit, a hammer, a large Philips screwdriver, and a pencil
- Hold the camera mount on the wall, where you want to place the camera
- Insert a pencil into each of the four screw holes on the mount, and make marks on the wall. You can put down the camera mount after that.
- Using a portable drill and 1/4" drill bit, drill holes where you marked
- Insert the wall anchors into the holes, use a hammer to make them flush with the wall
- Put the mount back up on the wall, and line up the holes on the mount with the anchors. Insert a screw into each hole and tighten with the Philips-head screwdriver.

- Put the Security Light Camera onto the mount by placing the 1/4" threaded hole on the back of the camera on the 1/4" screw on the mount.
- Rotate the camera clockwise to tighten
- Use the tightening ring on the 1/4" screw to tighten further
- Using the tightening collar on the mount to loosen/tighten, adjust the camera to where you want it, then tighten it.
- Connect the power! If you've already paired the camera, it will automatically reconnect.

* Do not force the antenna into a position or remove the antenna, as it may damage the device.

For detailed setup procedure, please refer to the Toucan website (www.ToucanSmartHome.com) or scan the QR code.
