

NO MORTAR

NO MESS

**CLIPSTONE**

MORTARLESS STONE VENEER  
BY ENVIRONMENTAL STONWORKS®

# easy to install

ClipStone® is a brand new innovative, easy-to-install stone veneer. With simple common tools, you can turn a plain boring wall into an eye-catching, professional-looking stone wall.

Because these are individual stones, you will have added design flexibility unlike many of the stone panels on the market today which can show obvious long seams. ClipStone goes up one at a time, just like traditional stone installed by a professional mason.

Designed so each ClipStone is raised slightly off the wall to allow the wall to breathe while providing a drainage plane in exterior applications.

Mounting clips are embedded within ClipStone so you can securely install onto the wall.

ClipStone stacks into place one after the other with ease.

Corners are reversible for easy installation

Individual ClipStones help you reduce any waste on your project since individual stones require less cutting.

## EASY TO INSTALL

For detailed Video Installation Instructions visit [myClipStone.com](http://myClipStone.com)

**MEASURE YOUR PROJECT**  
Measure the space you'll be installing ClipStone to determine how much you will need to purchase.

**ATTACH STARTER STRIP**  
Attach starter strip 1" below the bottom of where your stone will start making sure starter strip is level.

**INSTALL CLIPSTONE**  
With your power driver, use 1.25" screws in each visible eyehole.

**ENJOY CLIPSTONE**  
Step back and enjoy the view for years and years to come.
