

## **Warning**

Because there is always a chance that wood dust or some other of the hundreds of ingredients listed in Proposition 65 could potentially be on our furniture or packing materials, we must include Proposition 65 warning on our products or risk large fines under this law in California. In addition, we are required to use the exact wording for this warning specified in California: “This product contains chemicals known to the state of California to cause cancer or birth defects or other reproductive harm.”
