Н	5in. x 5in. x 108in. End Post - White (F)	73045785	1944654
I	5in. x 5in. x 106in. Gate Post Insert*	73041348	1143443
J	5in. x 5in. Contemporary Post Top - White	73013956	428791
K	4 oz. Tube Vinyl Adhesive	73047688	1966202

How to calculate fence materials:

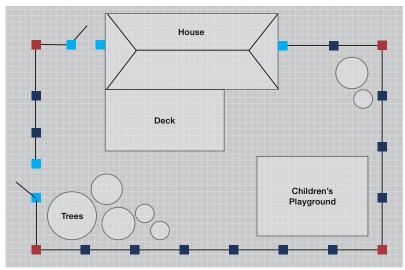

- 1. Determine total number of lineal feet and subtract footage for gates
- 2. Calculate # of fence panels needed: Total lineal feet divided by panel width (feet) = total # of panels

Note: panels can be cut to shorter width if necessary

- 3. Calculate # of posts needed:
 - 1 post per panel + 1 end post to end the fence run
 - 1 end/gate post per gate (don't forget 2 post inserts for each gate)

Key:

- Line posts use when connecting fence panels in a straight line
- Corner posts use when connecting fence panels at a 90 degree angle
- End posts use when ending a fence run or on either side of a gate
- Fence panels

Check with local building department for code requirements
