MODEL NO. RPJ107-BLACK

# Home Theater Projector with Bluetooth

INSTRUCTION MANUAL

PLEASE READ BEFORE OPERATING THIS EQUIPMENT

This product is manufactured and sold by Curtis International Ltd. RCA, the RCA logo, the two dogs (Nipper and Chipper) logo, are registered trademarks or trademarks of RCA Trademark Management and are used under license by Curtis International Ltd. Any other product, service, company, trade or product name and logo referenced herein are neither endorsed nor sponsored by RCA Trademark Management or its affiliates.

Ideal for dark viewing environments for optimal performance.
Please note:Projector brightness is measured in ANSI lumens.
Your viewing environment is the deciding factor on how many lumens your projector needs.

1

Important Safety Instructions

1. Read these Instructions.
2. Keep these Instructions.
3. Heed all Warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with a dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifier) that product heat.
9. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
10. Only use attachments/accessories specified by the manufacturer.
11. Unplug this apparatus during lightning storms or when unused for long periods of time.
12. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
13. Use only with a cart, stand, tripod, bracket, or table specified by the manufacturer or sold with the apparatus. When a cart is used, use caution when moving the cart/ apparatus combination to avoid injury from tip-over.

2

Additional Warnings and Precautions

1. Do not look directly into the projector light.
2. Don't touch the project lens.
3. Mains adapter is used as disconnect device and it should remain readily operable during intended use. In order to disconnect the apparatus from the mains completely, the mains plug should be disconnected from the mains socket outlet completely.
4. **CAUTION:** Use of controls or adjustments or performance of procedures other than those specified may result in hazardous radiation exposure.
5. **WARNING:** Changes or modified to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
6. **WARNING:** Use of this unit near fluorescent lighting may cause interference regarding use of the remote. If the unit is displaying erratic behavior move away from any fluorescent lighting, as it may be the cause.
7. **WARNING:** Shock hazard - Do Not Open.
8. Caution and marking information is located at the rear or bottom of the apparatus.
9. **WARNING:** To reduce the risk of fire or electric shock, do not expose this apparatus to rain, moisture, dripping, or splashing.
10. Objects filled with liquids, such as vases, shall not be placed on the apparatus.

FCC Warning   FCC ID: 2ANH7696PJ28BT

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

Remove the lens cover before using   Close the lens cover when unit not using

Placing Your Projector

Your projector can be installed in four different configurations (see picture below):

Front Table:
Select this location with the projector placed near the floor in front of the screen. This is the most common way to position the projector for quick setup and portability.

Rear Table:
Select this location with the projector placed near the floor behind the screen.
NOTE: That a special rear projection screen is required.

Front Ceiling:
Select this location with the projector suspended upside-down from the ceiling in front of the screen.
NOTE: A projector mount is required to install the projector in a ceiling.

Rear Ceiling:
Select this location with the projector suspended upside-down from the ceiling behind the screen.
NOTE: A projector mount is required to install the projector in a ceiling.
A special rear projection screen is required.

5

To Reduce Image Distortion

• Move the projector as close to the center of the screen as possible.
• The light beam from the projector should be perpendicular to the screen for a rectangular or square image.

Distance Between The Projector And Screen

Measure the distance between the projector and where you want to position the screen. This is the projection distance.

Distance	Screen Size
1.16m	37 inch
1.35m	45 inch
1.51m	50 inch
1.81m	60 inch
2.15m	72 inch

Installing your Projector in the Ceiling

When installing the projector in the ceiling, please purchase a projector mount recommended by an installation professional and follow the instructions that come with the mount.

Before installing the projector in the ceiling, please check to make sure the ceiling structure can support the weight of the projector and the mount. If in doubt, please ask the advice from an installation professorial.

NOTE: Projector mount and screw(s) not included

6

Adjust The Vertical Location

Follow below picture to adjust the vertical location.

Adjust this knob (ANGLE ADJ. knob) to fine- tune the display angle to higher.

Adjust The Focus And Keystone

Follow below picture to adjust the focus and trapezoidal screen.

Adjust the focus by turning the knob while observing the image pixels near the center of the screen. Optimal focus is obtained when the pixels are clearly visible. Depending on the projected screen size, the focus near the screen edges may be less sharp than the screen center.

Keystone image is created when the projector lens is projected from above or below the center of the screen. Keystone correction restores the distorted image to a rectangular or square shape.

KEYSTONE ADJ. KNOB

FOCUS ADJ. KNOB
Then sharpen the image by rotating focus knob.

Install / Remove Battery Of Remote

Remove the battery compartment cover on the back of your remote by carefully sliding to open. The battery cover can then be lifted away. Fit the correct batteries (not included), referring to the polarity markings. Finally, replace the cover.
NOTES:

• Batteries shall not be exposed to excessive heat such as placing under the sunlight or near a fire.
• Please make sure the batteries are installed with their correct polarities.
• Do not mix old and new batteries.
• Use only the same type of batteries.
• Do not dispose of the batteries in fire, battery may explode or leak.
• Do not recharge a non-rechargeable battery
