For the installation video, please refer to the product details page. If you have any questions, please feel free to contact us through the order interface.

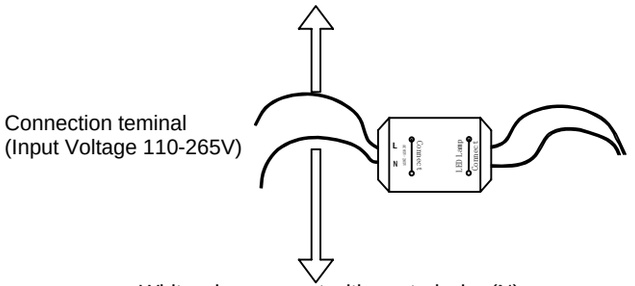

(Figure1)

(Figure2)

Black wire: connect with live wire (L)

White wire: connect with neutral wire (N)

Installation Steps:

1.Install the cross mounting bracket.
2. Be careful when unpacking the parts. Remove all of the plastic wrap from the frames.
3.Adjust the hanging wire height as needed.
4. Test circuit: Connect the power wires with a temporary wire to test if the light is working properly before installing it to the ceiling.
5. Installation: Attach the lamp body to the mounting bracket, and connect the power wires with the connecting terminals.
6.Turn on the power and double-check; the installation is complete.

Warning!

1.Please have the product installed by a professional.
2.This product is designed for operation at voltages between 110-260V only.
3.Do not install the lighting fixture in moist or damp conditions.
4.Always switch off the power before cleaning the lighting fixture.
5.Keep the lighting fixture away from acidic and corrosive materials.

Installation instructions for Mounting Bracket

When performing installation work, it is recommended that two people work together to complete the task.Assembly of the lamp requires another person to support it and read the operation manual.
