

How to Use This Mosquito Net Blanket

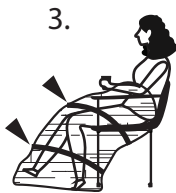

This blanket features two lines of wire that can be bent into place to keep the mesh away from your skin and the bugs off. Wrap around your shoulders, lay it across your lap, or cover up your whole body! Store in pouch for easy packing and access.

Remove the blanket from the pouch.

Grab both ends of each wire and pull to straighten.

Adjust/form wires to keep the mosquito net an inch or more away from your skin.

Washing Instructions: Carefully remove the wires from sleeves before washing. Wash in cold water on the gentle cycle. Tumble dry on low heat. Do not iron.
98% Polyester, 2% Cotton. Made in Mexico.

WARNING: This blanket could pose a strangulation hazard, please keep out of reach of children.
