

Turn-to-Seal Sink Strainer

DIRECTIONS:

- Remove all components from strainer body.
- Apply plumber's putty between strainer body and sink.
- Insert strainer body firmly in place while installing under sink - first rubber washer, then paper washer, then steel ring, with the flat side against the paper washer. Hand-tighten firmly.
- Place flanged tailpiece washer onto tailpiece and install slip nut with threads upward on tailpiece. Screw slip nut onto threaded shank of strainer body. Tighten firmly with wrench.

REQUIRED TOOLS:

Wrench
Plumber's putty
