ISSUED 08-2009

Revised 2014-06-26

Part	Description	Quantity
A	Elephant	1pc
B	T7 Bulb	1pc
C	Socket Assembly	1pc

! CAUTIONS

- These instructions are provided for your safety. It is very important that they are read completely before the installation of your fixture. We strongly recommend that a professional electrician install the fixture.
- Disconnect fixture from the power source before replacing the bulb(s), making sure the bulb(s) had sufficient time to cool down. DO NOT subject the lamp to any shock while lit as shattering of lamp may result.

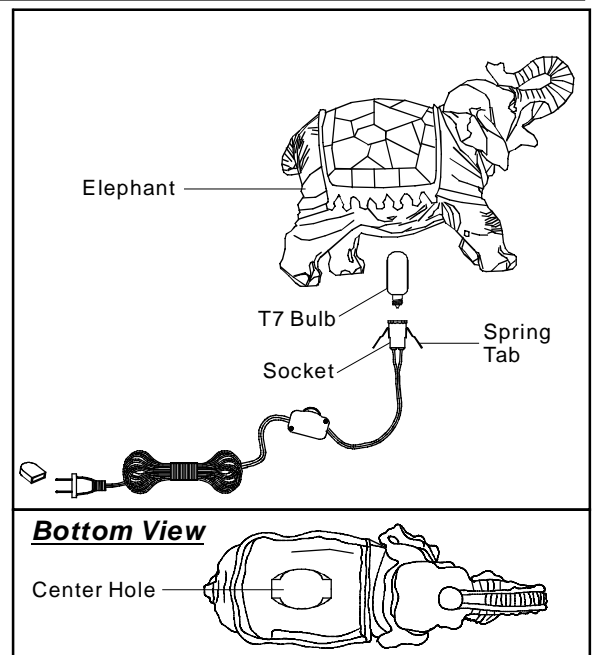

PREPARATION

- Before beginning installation of product, make sure all parts are present. Compare parts with package contents list and diagram above. If any part is missing or damaged, do not attempt to assemble, install or operate the product. Contact customer service for replacement part.
- Estimated Assembly Time : 20 - 30 minutes
- Tools Required for Assembly (not included) : (1) 15W T7 Cand Base Bulb.

ASSEMBLY

STEP 1:

- Install the T7 Bulb referring to fixture markings and/or labels for maximum wattage.
- Place the Socket with Bulb inside of the Center Hole on the bottom of the Elephant (Refer to Bottom View). The Spring Tabs on the Socket will engage the Socket after assembly.

Your assembly is completed now. Keep this sheet for future reference.
