

# One look and you're home

Know what's going on when you're away from home. A Full HD camera delivers a clear, detailed view, allowing you to monitor your home 24 hours a day from the convenience of your smartphone, tablet, Samsung TV or fridge. The SmartThings Camera intuitively distinguishes between a person and an object, alerting you immediately if necessary, while minimizing false triggers.

## Clear sight and sound.

Full HD and High Dynamic Range display a crisp, detailed view, day or night. Two-way audio and a built-in mic let you communicate with family members and pets.

## Tell who from what.

Intelligently senses motion to alert you at a moment's notice and differentiates between a person and an object. Set activity zones to pay closer attention to specific areas.

## 24-hour data access and viewing.

Control up to two SmartThings cameras and view rolling 24-hour recordings for free. All your footage is safely secured on your personal cloud and can be accessed remotely any time.

## Easy-to-view timeline.

See all of your in-depth alerts in an easy-to-view timeline in your SmartThings App dashboard.

Requires the free SmartThings app for Android (6.0 or later) or iPhone (iOS 11.0 or later) and 2.4GHz/5GHz Wi-Fi Network and broadband internet connection (at least 3Mbps upload speed). Does not need a SmartThings Hub (or compatible device with SmartThings Hub functionality). Power	AC Power/Wired
Color	White
Sensor	Motion Sensor
Security	256 bit AES/TLS1.2 with mutual authentication & TPM (Trusted Platform Module)
Video	1080p with HDR at 30 frames/sec
Audio	Bi-directional full-duplex audio (built-in microphone & 1W speaker), Noise Reduction
Field of View	145° diagonal
Night Vision	Built-in IR LEDs
Connectivity	Wi-Fi 802.11b/g/n, 2.4GHz/5GHz (WEP, WPA, WPA2, WPS encryption supported)
Operating Temp	32° to 104°F
AI Detection	Person Detection + Motion Detection Zone to minimize false alarms and provide contextual notification
Usage	Indoor only, wall mountable
