

NO.7420 INSTALLATION INSTRUCTION

Please Scan the QR code to watch the installation video. If you have any questions, please feel free to contact us through the order page.

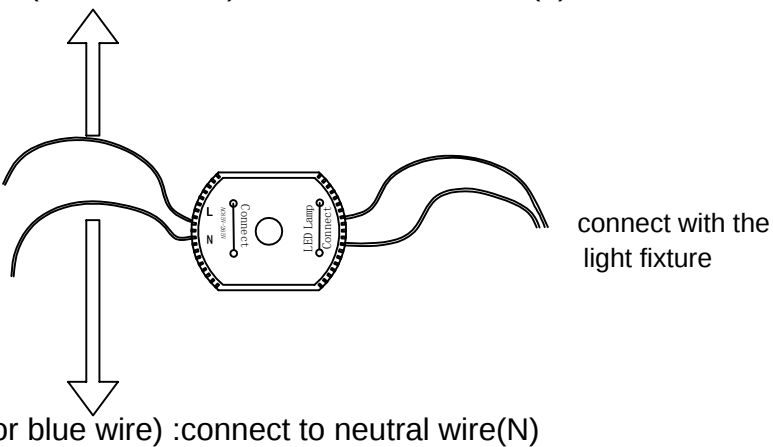

As shown in the diagram, please follow these steps to install.

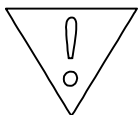

1. Insert the light head and pull the main wire above.
2. Fasten the tubes with a nut (use the tool provided in the accessories set).

Connection terminal
(Input Voltage 110-265V)

Installation Steps:

1. Install the mounting bracket.
2. Be careful when unpacking the parts. Remove all of the plastic wrap from the frames.
3. Adjust the hanging height as needed.
4. Test circuit: Connect the power wires with a temporary wire to test if the light is working properly before installing it to the ceiling.
5. Installation: Attach the lamp body to the mounting bracket, and connect the power wires with the connecting terminals.
6. Turn on the power and double-check; the installation is complete.

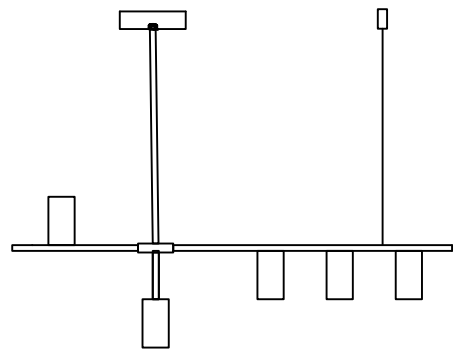

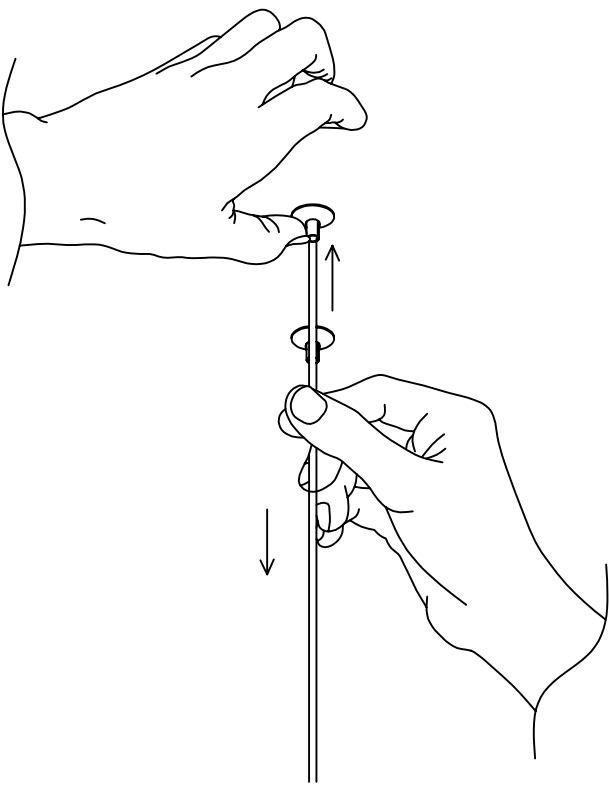

Warning!

1. Installation should be performed by a professional.
2. This light fixture operates within a 110V to 265V range only.
3. Do not install the light fixture in damp conditions.
4. To prevent electric shock, please turn off the power before installing, repairing, or cleaning the light fixture.
5. Keep away from acidic and corrosive materials.

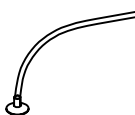

Installation Tips

While the installation process is straightforward, it is recommended that two individuals collaborate. This ensures efficient assembly of components and optimal safety when mounting to the ceiling.

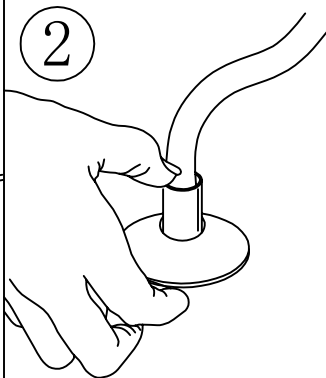

Press and hold this button to adjust the height of the hanging wire, allowing the pendant to be raised or lowered to your desired level.
