## GE Profile™ 30" Built-In Touch-Control Induction Cooktop

### DIMENSIONS AND INSTALLATION INFORMATION (IN INCHES)

**IMPORTANT:** Requires a 3" free area between the bottom of the cooktop to any combustible material, i.e., shelving. Free area not required when installing wall oven underneath cooktop. Refer to installation instructions. Requires a 15" minimum from cooktop to adjacent overhead cabinets. Units are furnished with a 48" flexible armored cable.

**NOTE:** 30" induction cooktops are approved for use over select GE 27" and GE 30" Single Wall Ovens and Warming Drawers. Refer to cooktop and wall oven/warming drawer installation instructions packed with product for current dimensional data. If installed with a GE Telescopic Downdraft System, consult both the cooktop and downdraft installation instructions packed with product before installing. Cooktop gas/electric supply may need to be re-routed to install downdraft. The countertop cutout requires 23-1/2" minimum flat countertop surface and 25" minimum total countertop depth. In addition, other clearances to front edge of the countertop must be considered. **Before installing, consult installation instructions packed with product for current dimensional data.**

**CUTOUT FILLER TRIM KIT:** A filler trim kit is available for use if your countertop cutout is larger than the dimension shown, up to 29-13/16" x 20-7/16". Order JXTR32B for black or JXTR32W for white, to reduce the cutout opening for installation of this cooktop. These kits may be ordered from your GE Appliances Dealer.

### APPROXIMATE COOKING DIMENSIONS

To insure accuracy, it is best to make a template when cutting the opening in the counter

13" MAX. depth of unprotected overhead cabinets (when no hood or microwave is installed)

### INSTALLATION ABOVE A WALL OVEN

KW RATING	
240V	7.4
208V	6.4
AMPERAGE	
240V	40 Amps†
208V	40 Amps†

†NOTE: Check local codes for required breaker size.
