Air Purifier User Manual

Model No: AP-528

Email: support@trustechproducts.com

Before operation, please read this manual thoroughly and retain for future reference.

IMPORTANT SAFEGUARDS:

Please read the entire instruction manual before using the product and then save it for future reference.

1. Recommend to use individual electric supply socket and not to use an extension socket, in order to avoid the danger of overheating in the outlet. Using inappropriate voltage and power outlet will damage and harm others.
2. Do not immerse the appliance or the electrical cord or plug in liquids.
3. Place the product on a flat, firm and safe place. Do not put it on the table edge or the tilted area, in order to avoid dropping or damaging the product accidentally.
4. Do not operate the product without filters or with damaged filters.
5. Not to place it where the product is exposed to condensation, due to big temperature changes. Operate it under room temperature between 0⁰-35⁰.
6. Always switch off the product before attempting to open the cover and take the filter.
7. Do not block the air inlet and outlet to avoid damage due to overheating. Place away from soft objects such as curtains. Please make sure there's a 30cm distance between the object

and the product which including a top side, front and back side as well.

8. To avoid shortening life span or damaging your product, do not use the machine with parts or accessories that are not original. Otherwise, the warranty of the product will be invalid.

9. Never operate the product without supervision. Children should be supervised by a responsible adult to ensure that they do not play with the product.

10. Do not put your fingers or other objects into the air outlet, to avoid injury and damage the product.

11. Periodically check the electric cable of the product. If the electric cable is damaged, it must be replaced by after-sales service in order to avoid danger.

12. Do not operate the product in the area where gasoline, painting or flammable liquids are around. Keep the product away from heat or hot units, as it may cause an explosion.

13. This product is not intended to use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

14. Before cleaning, repairing or moving the product, you must unplug it. Do not use volatile liquids or hard cloth to clean the product, as to prevent the product from scratching.
15. Do not use this appliance when you have used indoor smoke-type insect repellents or in places with oily residues, burning incense or chemical fumes.
16. Always unplug the appliance after use. When unplugging the power cord, hold the plug top, not the power cord.

Specifications

Rated voltage: 120V 60Hz

Power: 42W

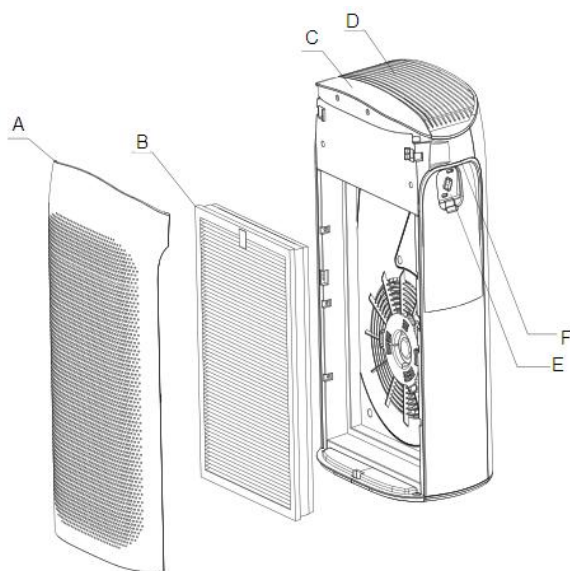

Recommend coverage: 35-45 m²

Noise level: 34~50dB

Product size: 32.7 x 22 x 55.8cm

Weight: 5.0 KGS

Parts Description

A. Front side of air purifier

B. 3-in-1 Composite Filter

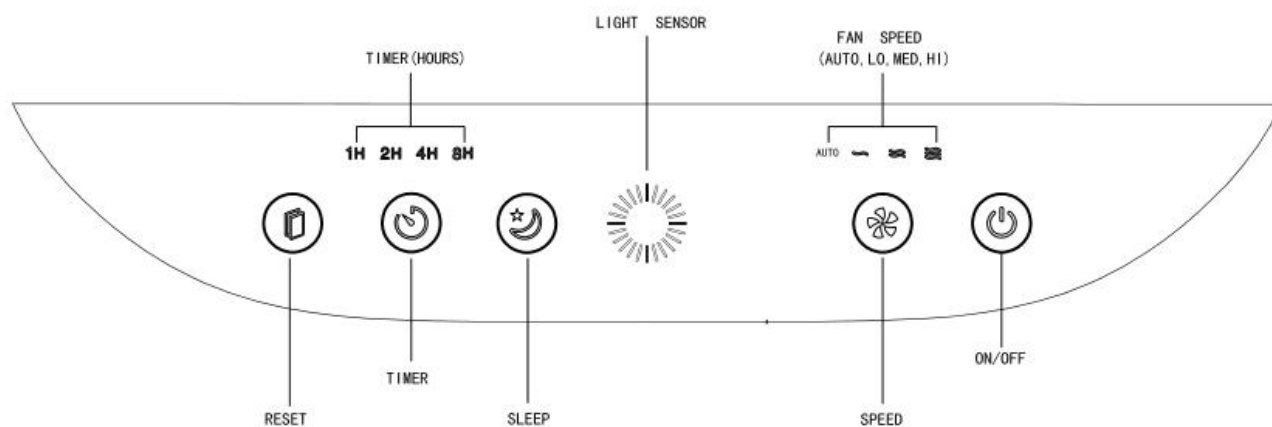

C. Front Panel

D. Air outlet

E. Dust Sensor

F. Handle

Control panel and functions
