

## **Care and Cleaning**

Mustee products may be cleaned with a mild soap solution in warm water using a soft cloth.

When using a cleaner product, carefully read the label to ensure that the cleaner is safe for use on fiberglass. Stains can be cleaned using the following:

Soft Scrub® by Clorox®  
Spic-n-Span®  
Mr. Clean Magic Erasers

Do not allow cleaners to sit and soak on the surface. Wipe surface clean and rinse completely with water immediately after cleaner application. Rinse and dry any over spray on nearby surfaces.

Never use abrasive scouring powder or steel wool pads, as they will scratch the surface. A periodic coating of a high-quality marine or automotive polish will help retain the finish.

The products listed are subject to changes made by the recommended manufacturers.
