- 9-hour programmable timer
- 2 heat settings & flame only function
- Adjustable flame color & brightness
- Automatic thermal safety shut off
- CSA certified

The Seville electric fireplace will quickly turn your room into a cozy conversation space. Not only is it packed with heat functions and adjustable flame displays; it also doubles as an entertainment stand with additional storage solutions. The mantel features a faux marble top that is long enough to accommodate flat panel TVs up to 50 inches. A long A/V shelf lies underneath, creating a convenient compartment for items like soundbars, DVD players, game consoles, and cable boxes. Four small storage compartments are located on both sides of the fireplace insert. They offer a convenient place for media storage or showcasing your favorite décor. The shelf dividers can also be removed, creating two tall compartments for vertical modems, routers, and subwoofers.

The LED insert produces 5,115 BTUs of fan-forced heat that quickly warms a 210-sq. ft. room. An enchanting flame display dances across the back of the firebox, creating movement that is sure to catch your eye. Embers of light glaze across the logs within, adding more depth to the realistic log display. The brightness, flame color, and heat settings can be adjusted at the push of a button, and the flames can operate without heat—perfect for use throughout the year.
