# ABOUT JELD-WEN

## DEDICATION FROM DAY ONE

Since 1960, when JELD-WEN began with one millwork plant, we've been dedicated to crafting windows and doors that enhance the beauty and functionality of your home. Today, we continue that tradition with innovation, engineering high-quality products that are durable and well-designed.

In addition to responsible reforestation practices, we reuse and recycle as much of our raw resources as possible. Innovation is also at the heart of our manufacturing process. With JELD-WEN, you can expect products that are more than just beautiful on the outside. The inner workings of our windows and doors are engineered to function for years to come.

## FARMHOUSE

### RUSTIC CHARM MEETS MODERN SIMPLICITY

Modern farmhouses are a blend of old and new. Warm, natural wood tones with various panel sizes add detail and character while white interior doors add subtle interest. Blend living spaces with doors that seamlessly fit into the interior décor or mark the spot of a transition with beautifully stained wood species and an arch top that's elegant yet rustic. Matte black or brushed hardware adds the final touch to expertly crafted doors that suit any Farmhouse style home.
