

INSTALLATION INSTRUCTIONS #39602

Please read carefully and save these instructions, as you may need them at a later date.

CAUTION

WARNING: Risk of Fire. Consult a qualified electrician to ensure correct branch circuit conductor. Min 90°C supply conductors.

Turn off the main power at the circuit breaker before installing the fixture, in order to prevent possible shock.

GENERAL

All electrical connections must be in accordance with local and National Electrical Code (N.E.C.) standards. If you are unfamiliar with proper electrical wiring connections obtain the services of a qualified electrician.

Remove the fixture and the mounting package from the box and make sure that no parts are missing by referencing the illustrations on the installation instructions.

ASSEMBLY AND INSTALLATION

1. Thread two Mounting Screws(8) to the round mounting strap(9) and secure with the Hex nut(7).
2. Secure the round Mounting strap(9) with Box screw(10) to the Outlet box(1).
3. Pull out the outlet wire and ground wire from the Outlet box(1). Make wire connections
--White wire (w/o marking) from light to White wire(2) from outlet box(1).
--Black wire (w/o marking) from light to Black wire(3) from outlet box(1).
--Loop the Ground wire(4) to round Mounting strap(9) with a Ground screw(6)
4. Attach the Back plate(11) against the Outlet box(1), secure with the Ball nut(12)
5. Install bulb: (bulb not include)
(Please don't exceed the maximum capacity that recommended on the sockets).
6. Insert glass shade(17) into cage(18).
7. Put the cage(18) into top cap(13), then secure it with screw(14) (See Fig:1)
