

Let your lights work for you.

Light up any room with the SmartThings Smart Bulb that's easy to control from your smartphone or tablet. Turn on the living room lamps as you're heading home, dim the lights for movie night or schedule them to turn off before bed. It's the smarter way to light your house while saving money on energy costs.

Easy on energy. Easy on your wallet.

Save time and money with energy-efficient LED SmartThings Smart Bulbs that you can monitor and control from your SmartThings app.

Compatible with Bixby, Google Assistant and Alexa.

Just ask Bixby, Google Assistant or Alexa to turn the lights on or off for you.

One app controls it all.

Together with the SmartThings Hub and the SmartThings app, power on or dim right from your smartphone or tablet.

Works with your routine.

Adjust lighting to fit your daily routine—when you're at home, at work or on vacation—with the SmartThings app.
