

Assembly Instructions

Caution : You must read this before you proceed

Care & Maintenance

- ⊘  • Not for commercial use. For residential use only.
- ⊘  • Prolonged exposure to rain may cause rusting which can stain floors.
- ⊘  • Do not put hot items directly on furniture surface.
- ⊘  • Do not clean furniture with harsh cleansers or polish.
- ✓  • To obtain the longest lifespan of your outdoor products, minimizing exposure to direct sunlight is recommended.
- ⊘  • Children should not climb or jump on the furniture.
- ⊘  • Do not write on furniture without a padded barrier to protect the surface.
- ✓  • To obtain the longest lifespan of your outdoor products, avoid extended and lengthy exposure to rain, snow, and direct sunshine. Whenever possible cover the product and /or place under patio or awnings.
- ⊘  • Stains may be removed with mild soap solution and damp cloth.
- ✓  • Keep away from sources of ignition.
- ✓  • Dust and pick-up spills using a clean, non-colored, lint-free cloth.

TABLE

Parts List

Label	Picture	Description	QTY
A		Table Top Support	1
B		Leg	3
C		Fixed Ring	1
D		Glass Top	1

Hardware

Label	Picture	Description	QTY
①		Bolt (M6*15mm)	7
②		Allen Wrench (M6)	1
③		Washer (M6)	7

③

- Read instructions, cover to cover-

- Have 2 adults on hand for assembly-

- Do not assemble on flooring or carpet-

- Assemble on a clean non-marring surface (packing foam)-

- Save all packaging until finished-

Assembly Steps

Overview

This Table has multiple parts and may require up to 30 minutes to assemble. To give you an overview of the Table parts, the above picture is provided to help put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembling.

Step 1

Unpack and place all parts on a clean, non-marring surface.

Step 2

Place the Table Top Support(A) on the clean, non-marring surface.
Using the Allen Wrench(②) attach one of the Legs(B) to Table Top Support(A) with Bolts(①) & Washer(③).

DO NOT FULLY TIGHTEN THE BOLTS.

Repeat the step with the remaining 2 Legs.

Step 3

Place the Table Top Support(A) face down upon the non-marring surface.
Place the Fixed Ring(C) as shown above.

Using the Allen Wrench(②) attach the Fixed Ring(C) to Leg(B) using Bolts(①) & Washer(③).

DO NOT FULLY TIGHTEN THE BOLTS.

Repeat the step with remaining 2 Legs.

Step 4

Place the table frame on a LEVEL SURFACE to see if it wobbles.

If it wobbles, lift the Table some 30cm to 50cm high from the ground.

Keep your feet and toes well away from the drop zone.

Drop the table frame freely and vertically with the four legs, hitting the ground, at the same time.

This Drop Test will help to ensure that all the Bolts and gaps all reach full alignment status.

Test again for evenness on a LEVEL SURFACE.

If no wobbles are found, proceed to tighten all the Bolts.

When tightening the Bolts, tighten sequentially.

DO NOT tighten any Bolt fully and then move on to the next one.

This may cause the frame to warp.

If there are still wobbles, loosen the Bolts and execute the same drop test. It is important to ensure the table is stable. If it is not stable it could lead to damage.

Step 5

Take off the glass and level it before putting it on.
Place Glass Top (D) on the top of the table.

Step 6

Your Table is ready for use.
This Table can only be used on a flat and level surface.

Questions & Answers about Proposition 65

- What is Proposition 65?

Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm. These chemicals can be in the products that Californians purchase, in their homes or workplaces, or that are released into the environment. By requiring that this information be provided, Proposition 65 enables Californians to make informed decisions about their exposures to these chemicals.

Proposition 65 also prohibits California businesses from knowingly discharging significant amounts of listed chemicals into sources of drinking water.

Proposition 65 requires California to publish a list of chemicals known to cause cancer, birth defects or other reproductive harm. This list, which must be updated at least once a year, has grown to include approximately 900 chemicals since it was first published in 1987.

- What types of chemicals are on the Proposition 65 list?

The list contains a wide range of naturally occurring and synthetic chemicals that include additives or ingredients in pesticides, common household products, food, drugs, dyes, or solvents. Listed chemicals may also be used in manufacturing and construction, or they may be byproducts of chemical processes, such as motor vehicle exhaust.

- What does a warning mean?

If a warning is placed on a product label or posted or distributed at a workplace, a business, or in rental housing, the business issuing the warning is aware or believes that it is exposing individuals to one or more listed chemicals.

By law, a warning must be given for listed chemicals unless the exposure is low enough to pose no significant risk of cancer or is significantly below levels observed to cause birth defects or other reproductive harm.

- Where can I get more information on Proposition 65?

If you have specific questions on the administration or implementation of Proposition 65, you can contact OEHHA's Proposition 65 program at P65.Questions@oehha.ca.gov, or by phone at (916) 445-6900.
