Friendly Tip: Take a deep breath going in. This may be a tricky part, but nothing too overwhelming. Just follow these steps to the T and the outcome will be worth it!

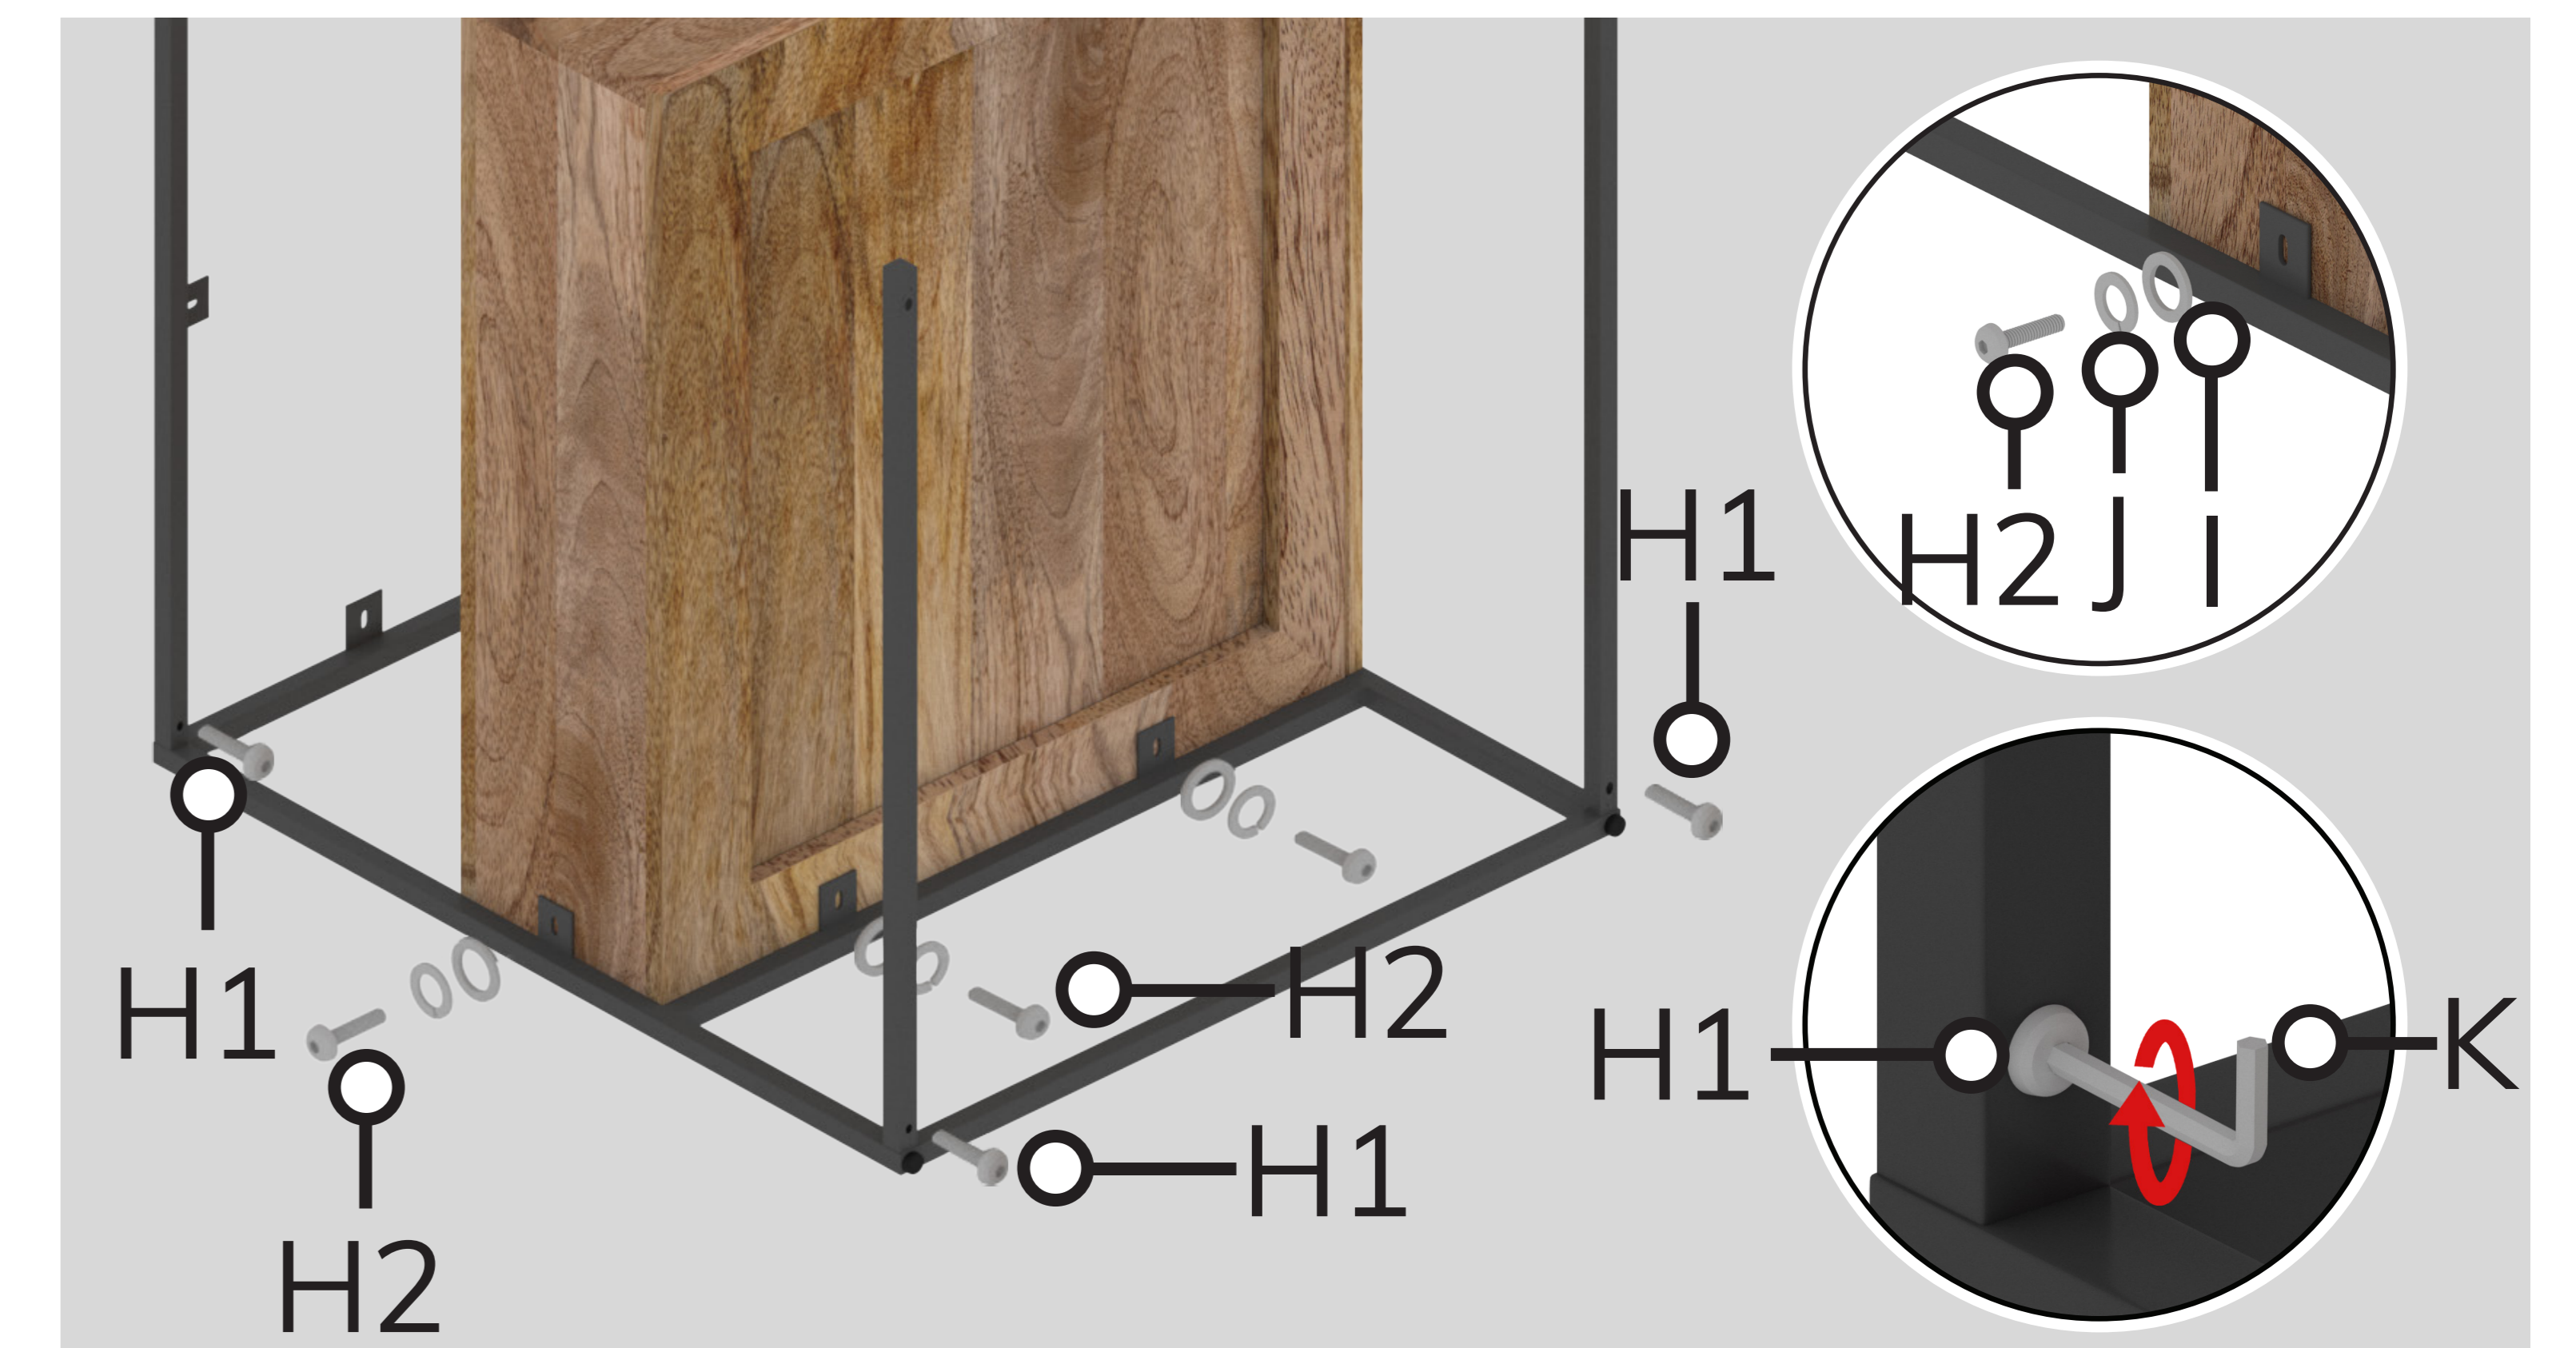

step 1:

Taking this image as reference, start by aligning drawer shelf (B) with right frame (D). See the highlighted circle in red to know where to attach pipes (E, F). Pipes (G) will be attached on the opposite end of right frame (D).

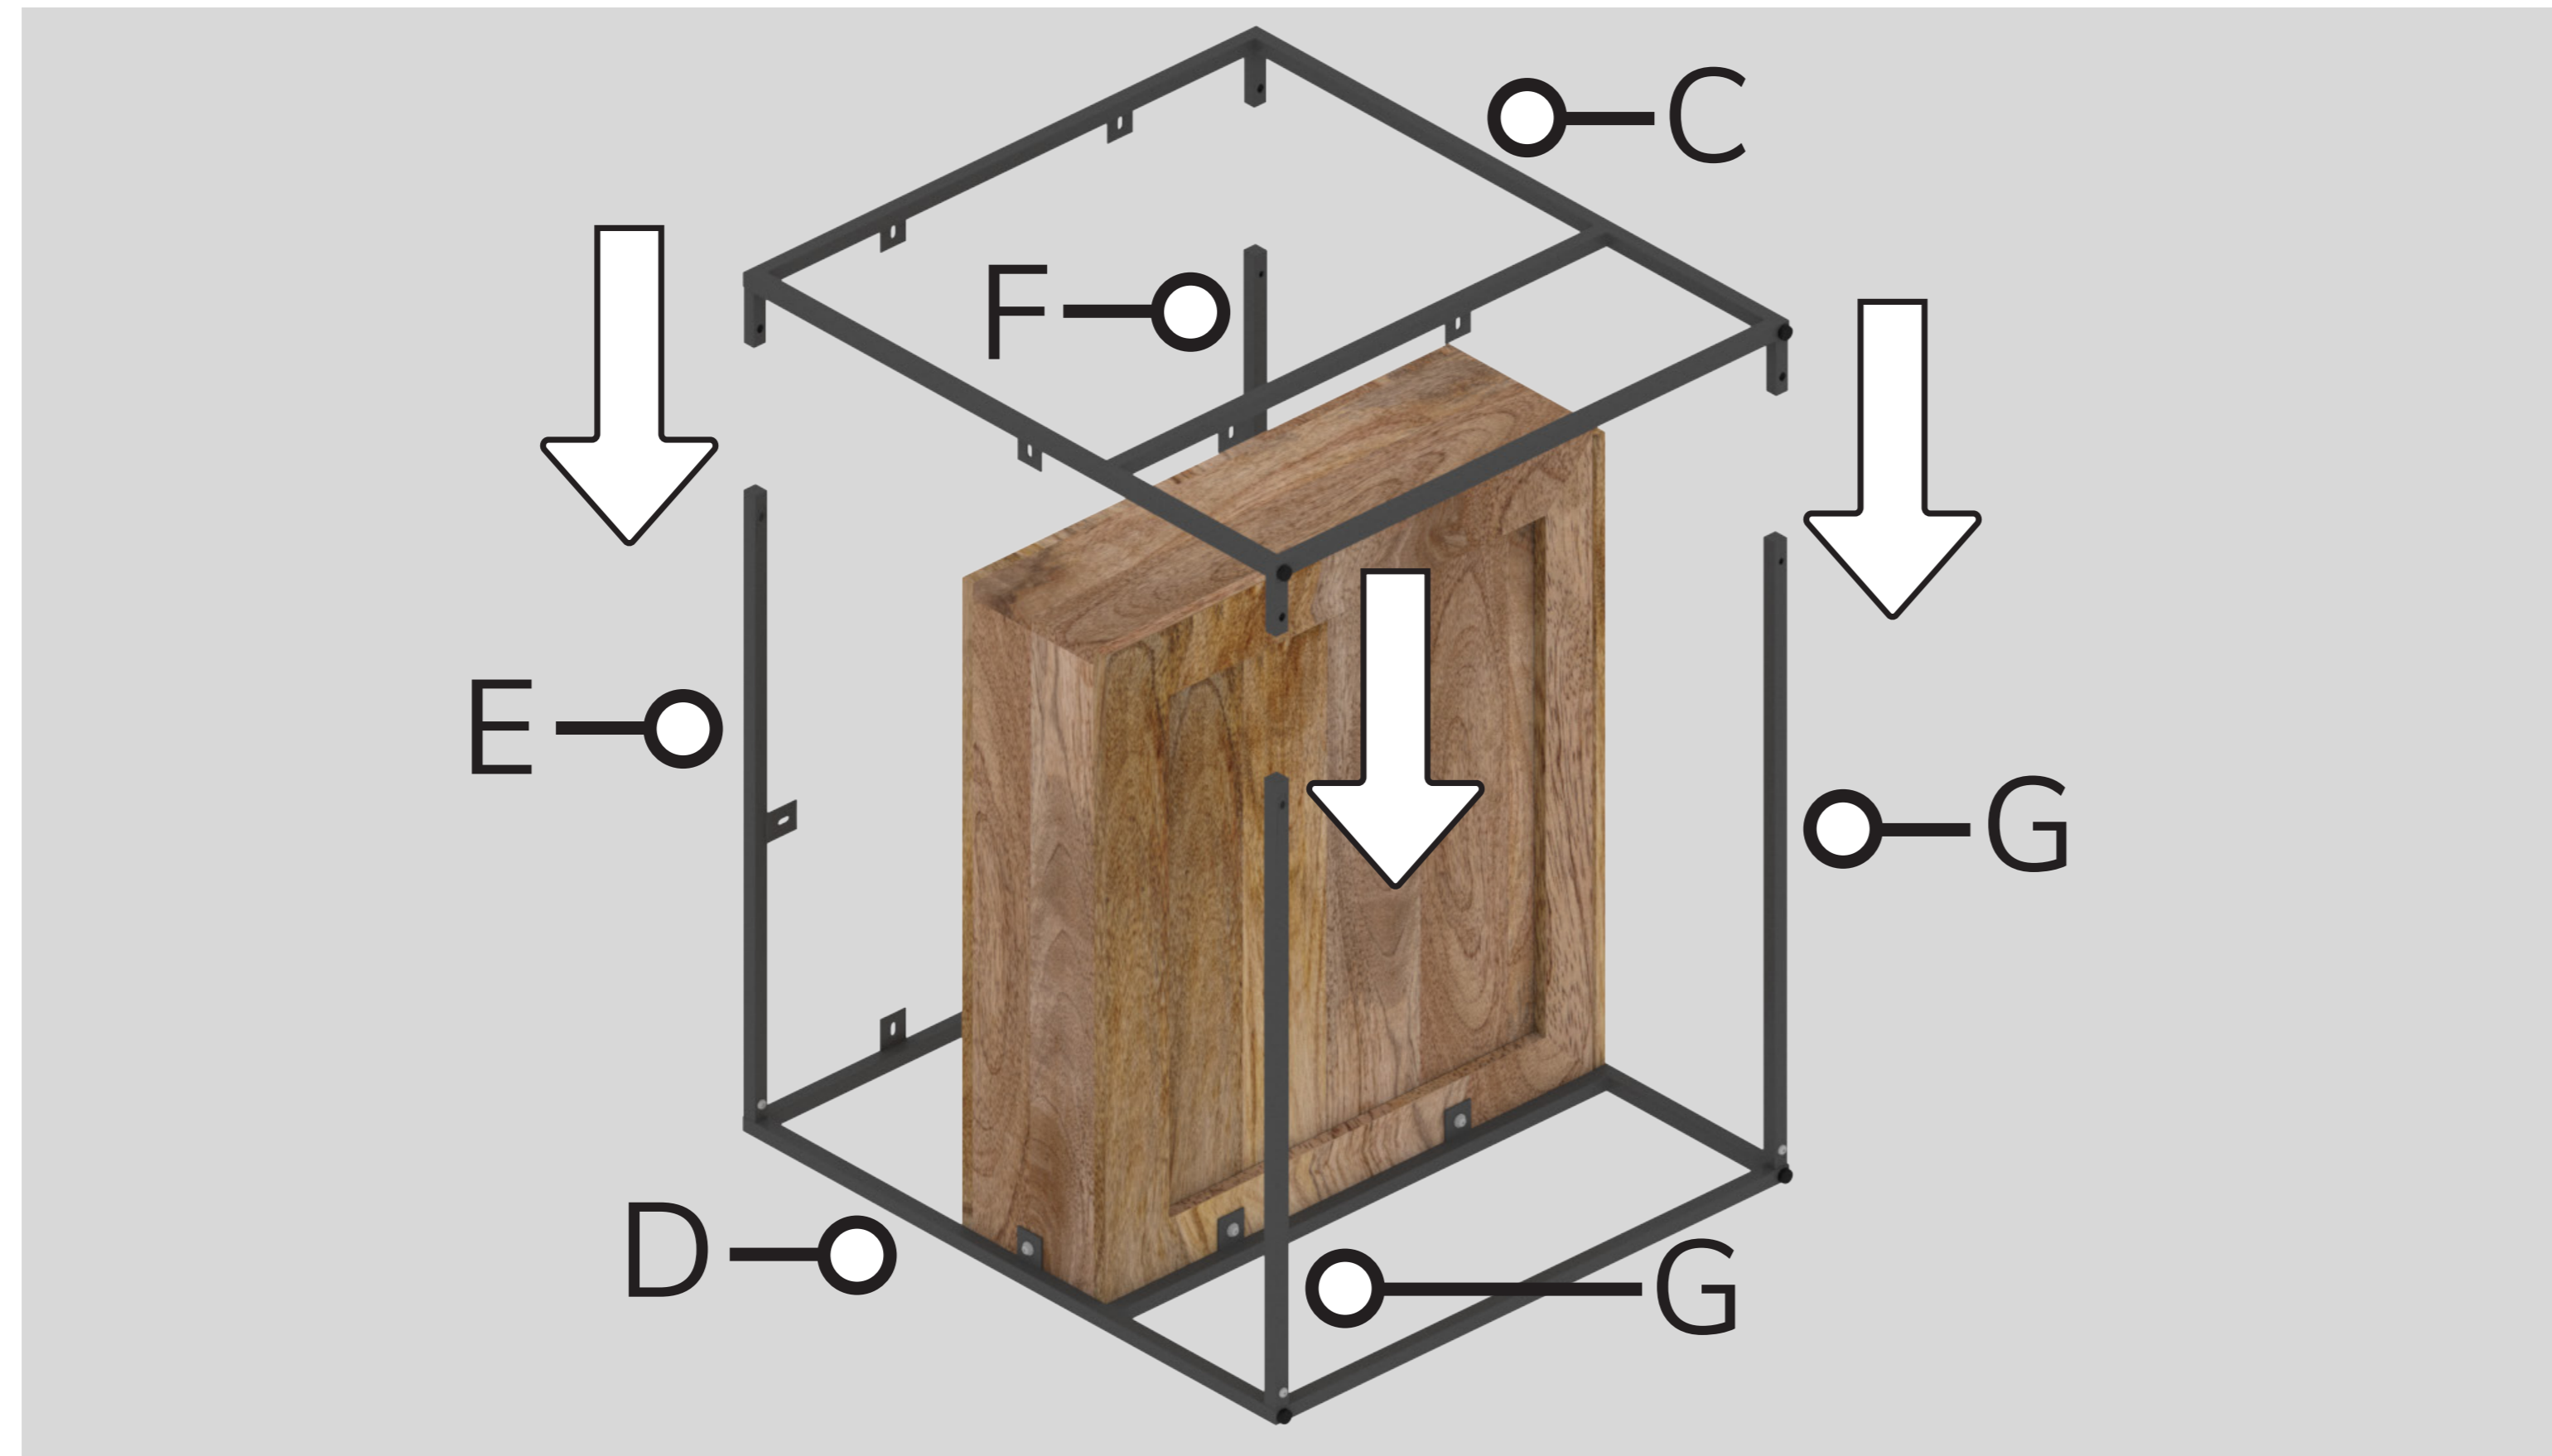

step 2:

Once aligned, secure drawer shelf (B) on right frame (D) using washer (I), lock washer (J), and bolt (H2). Secure pipes (E, F) and pipes (G) in place using bolts (H1). Tighten all points using allen key (K).

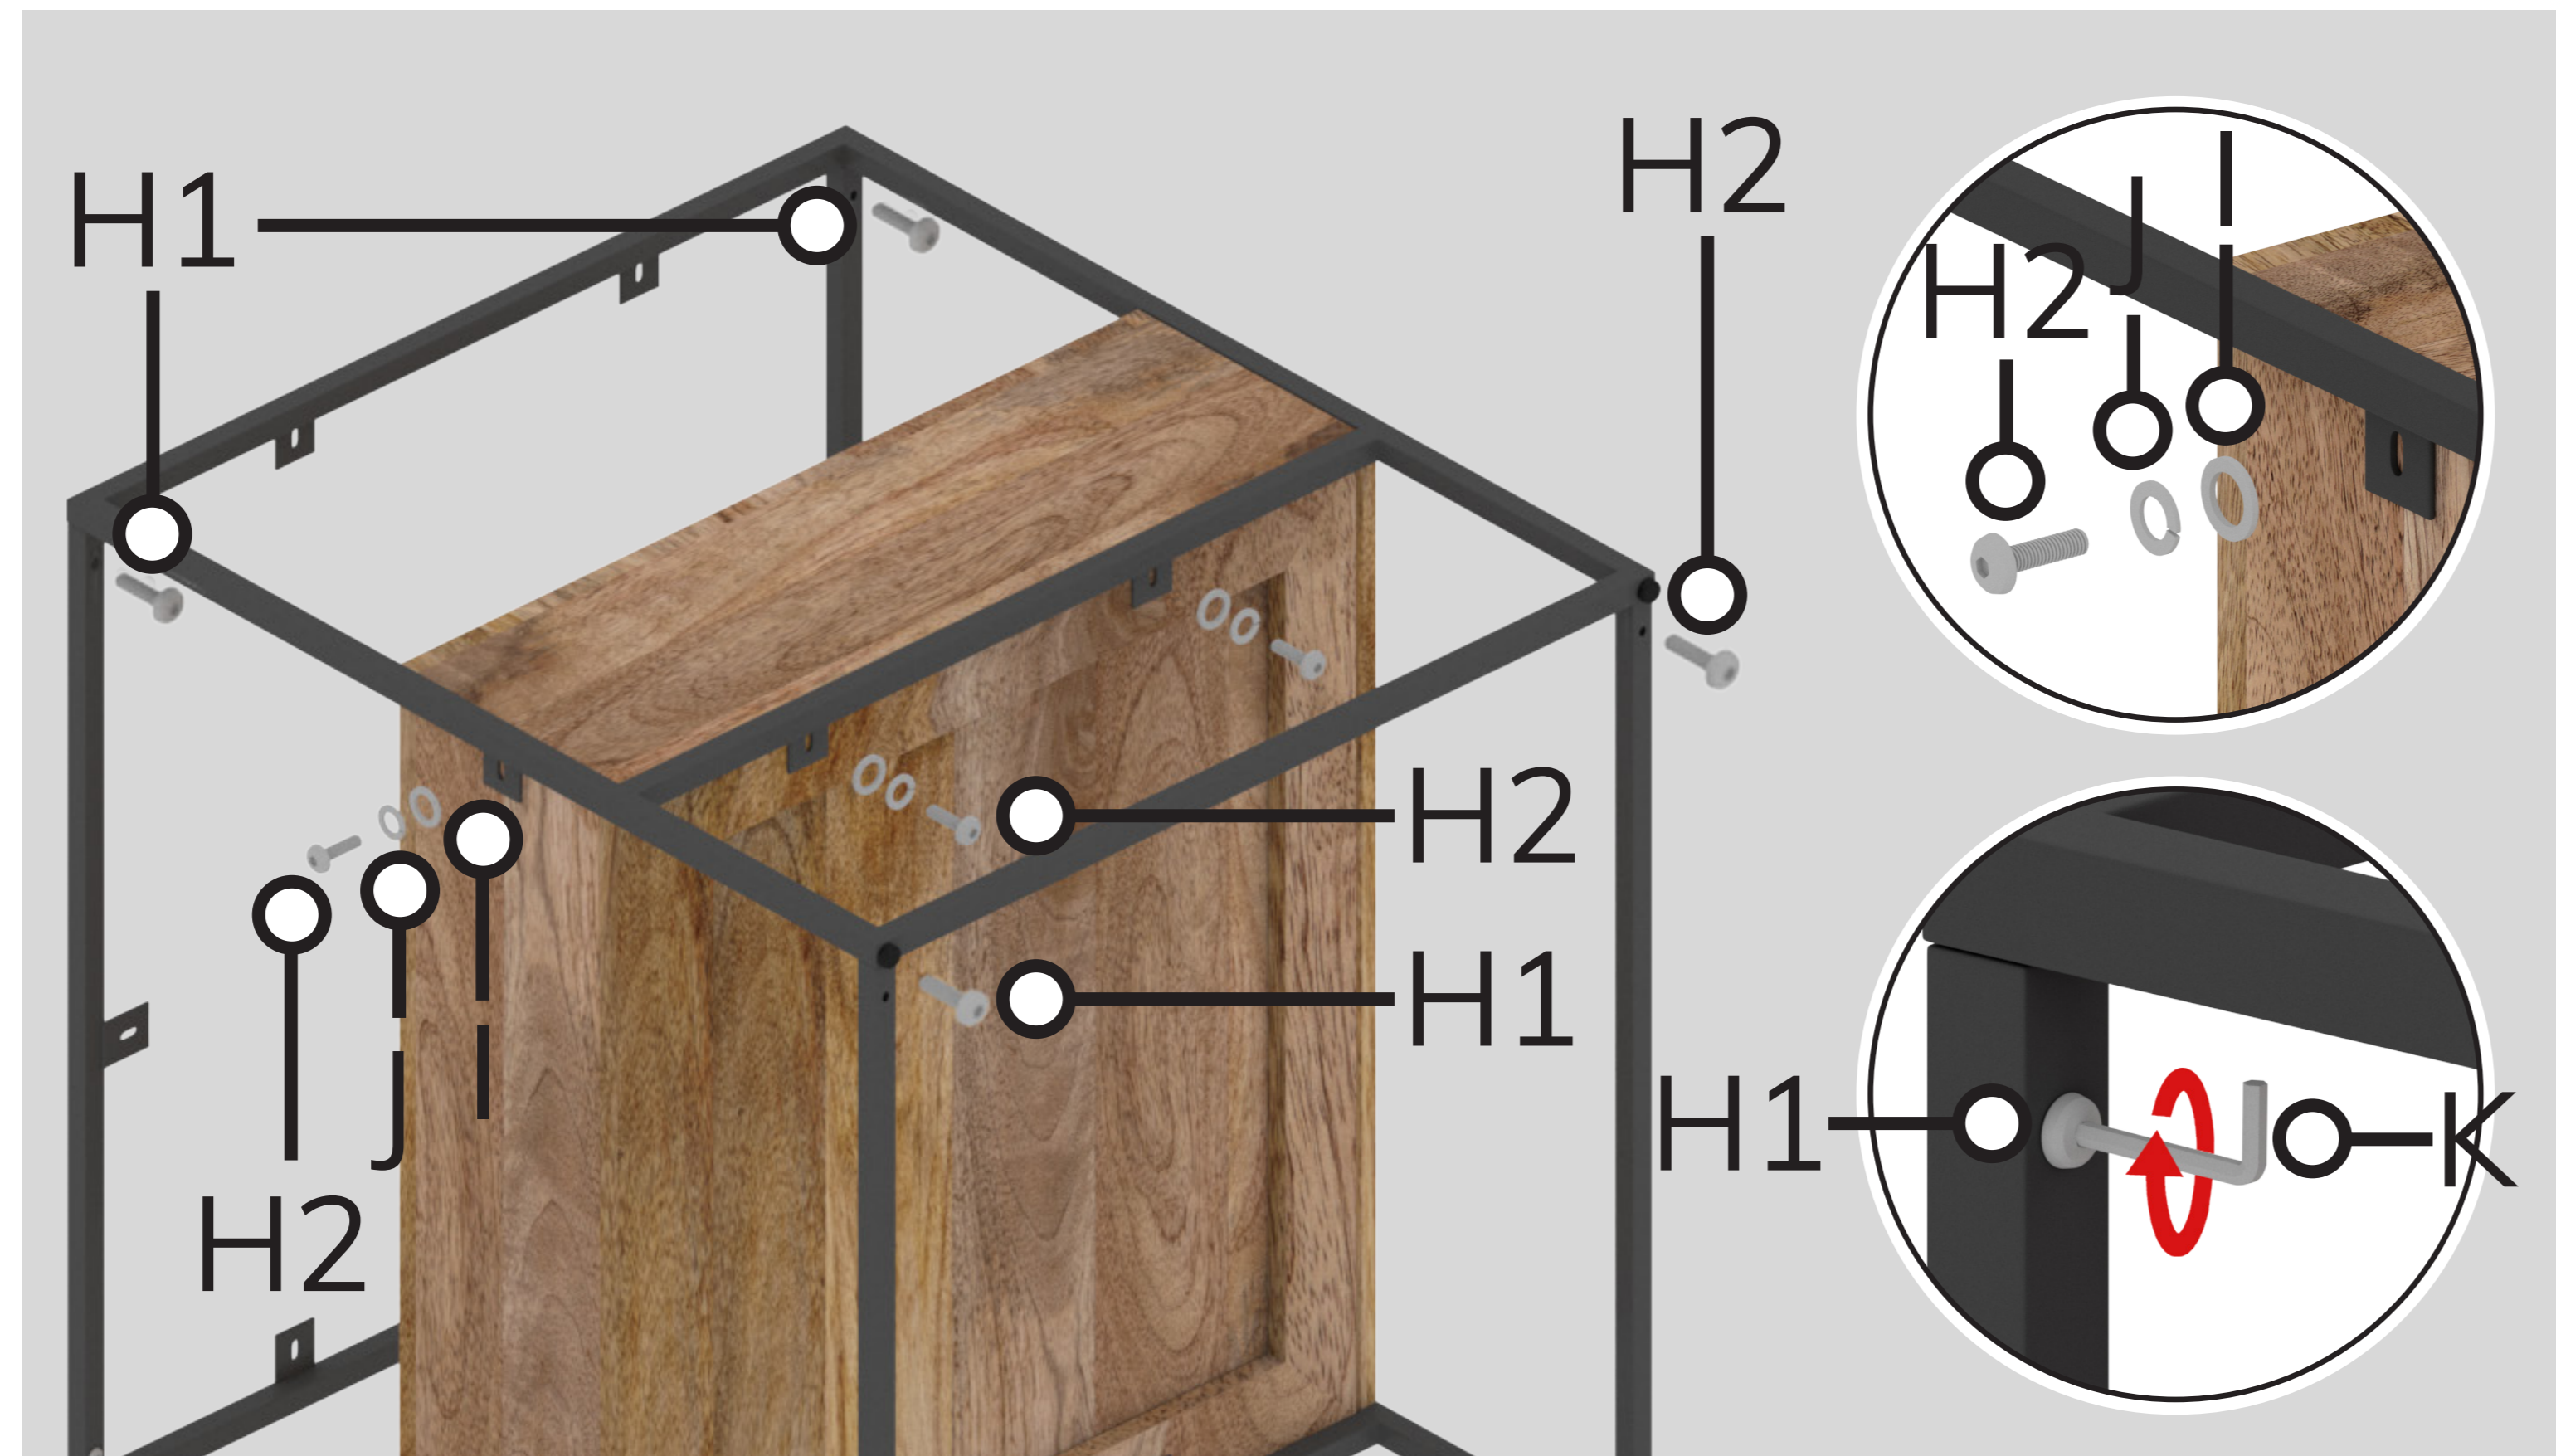

step 3:

Now, take left frame (C) and align it with pipes (E, F) and pipes (G) taking this image as reference.

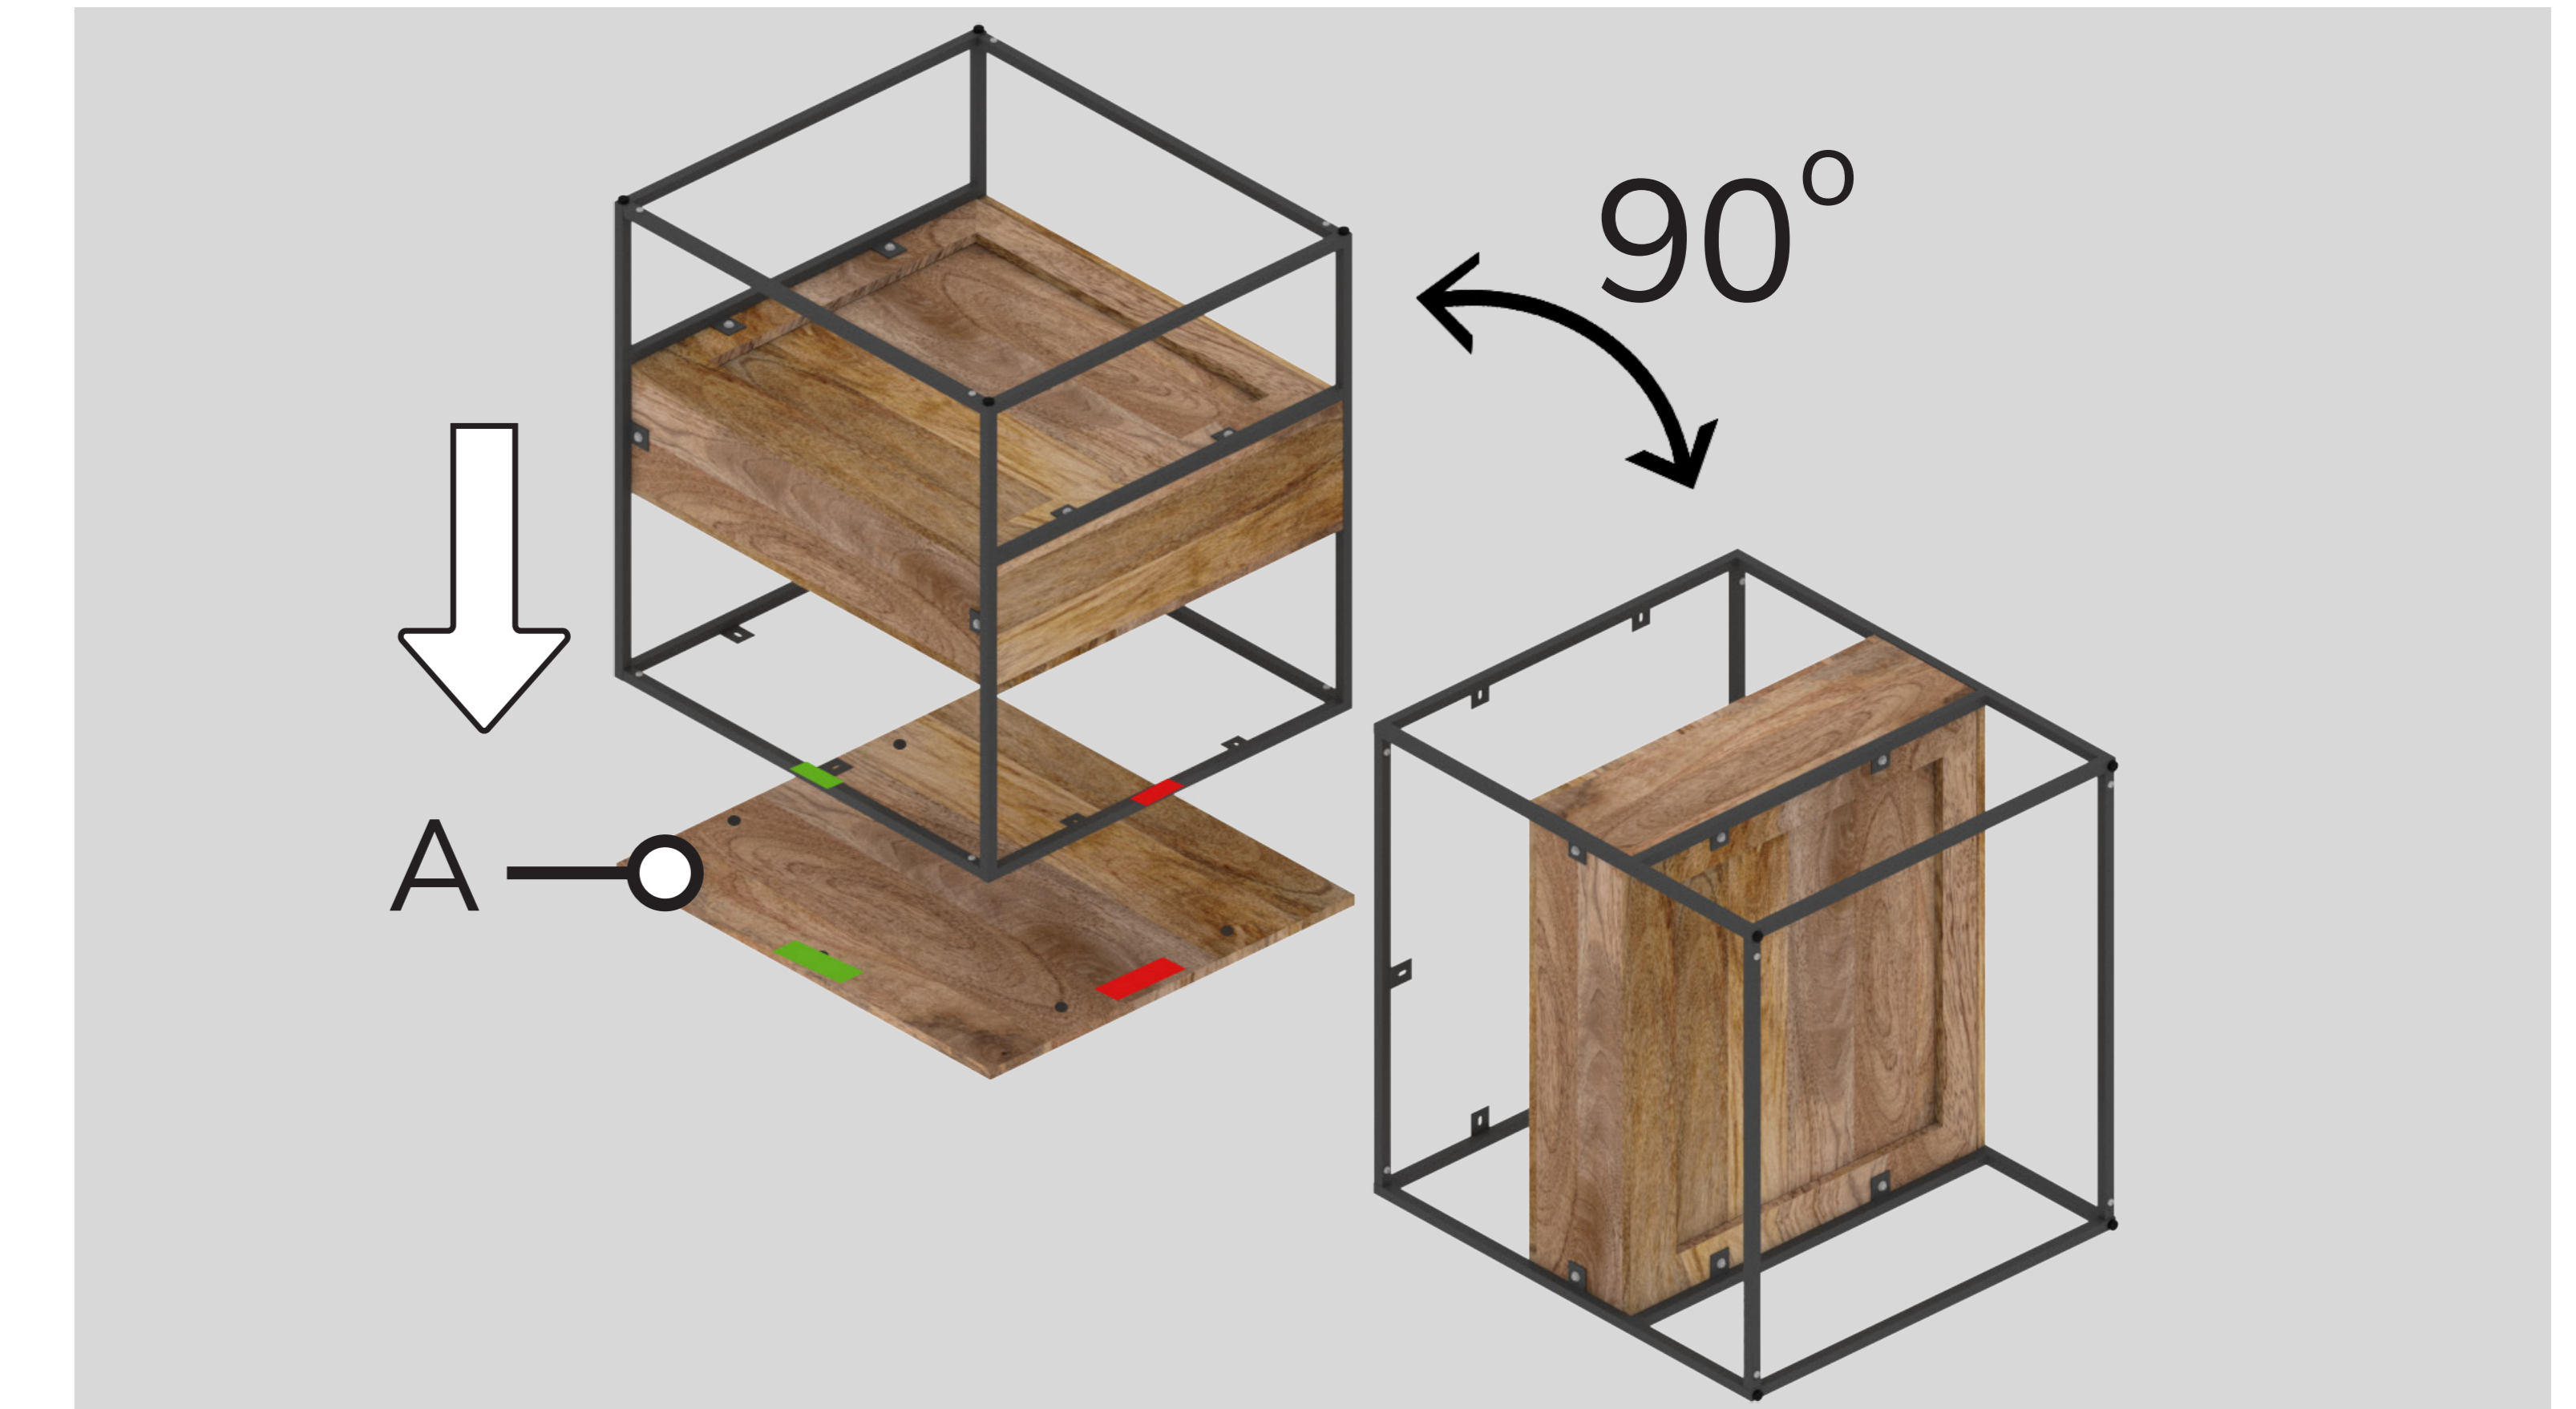

step 4:

Fix left frame (C) in place using bolts (H1) and allen key (K). Secure drawer shelf (B) on the left frame (C) using washer (I), lock washer (J), and bolt (H2). Tighten points using allen key (K).

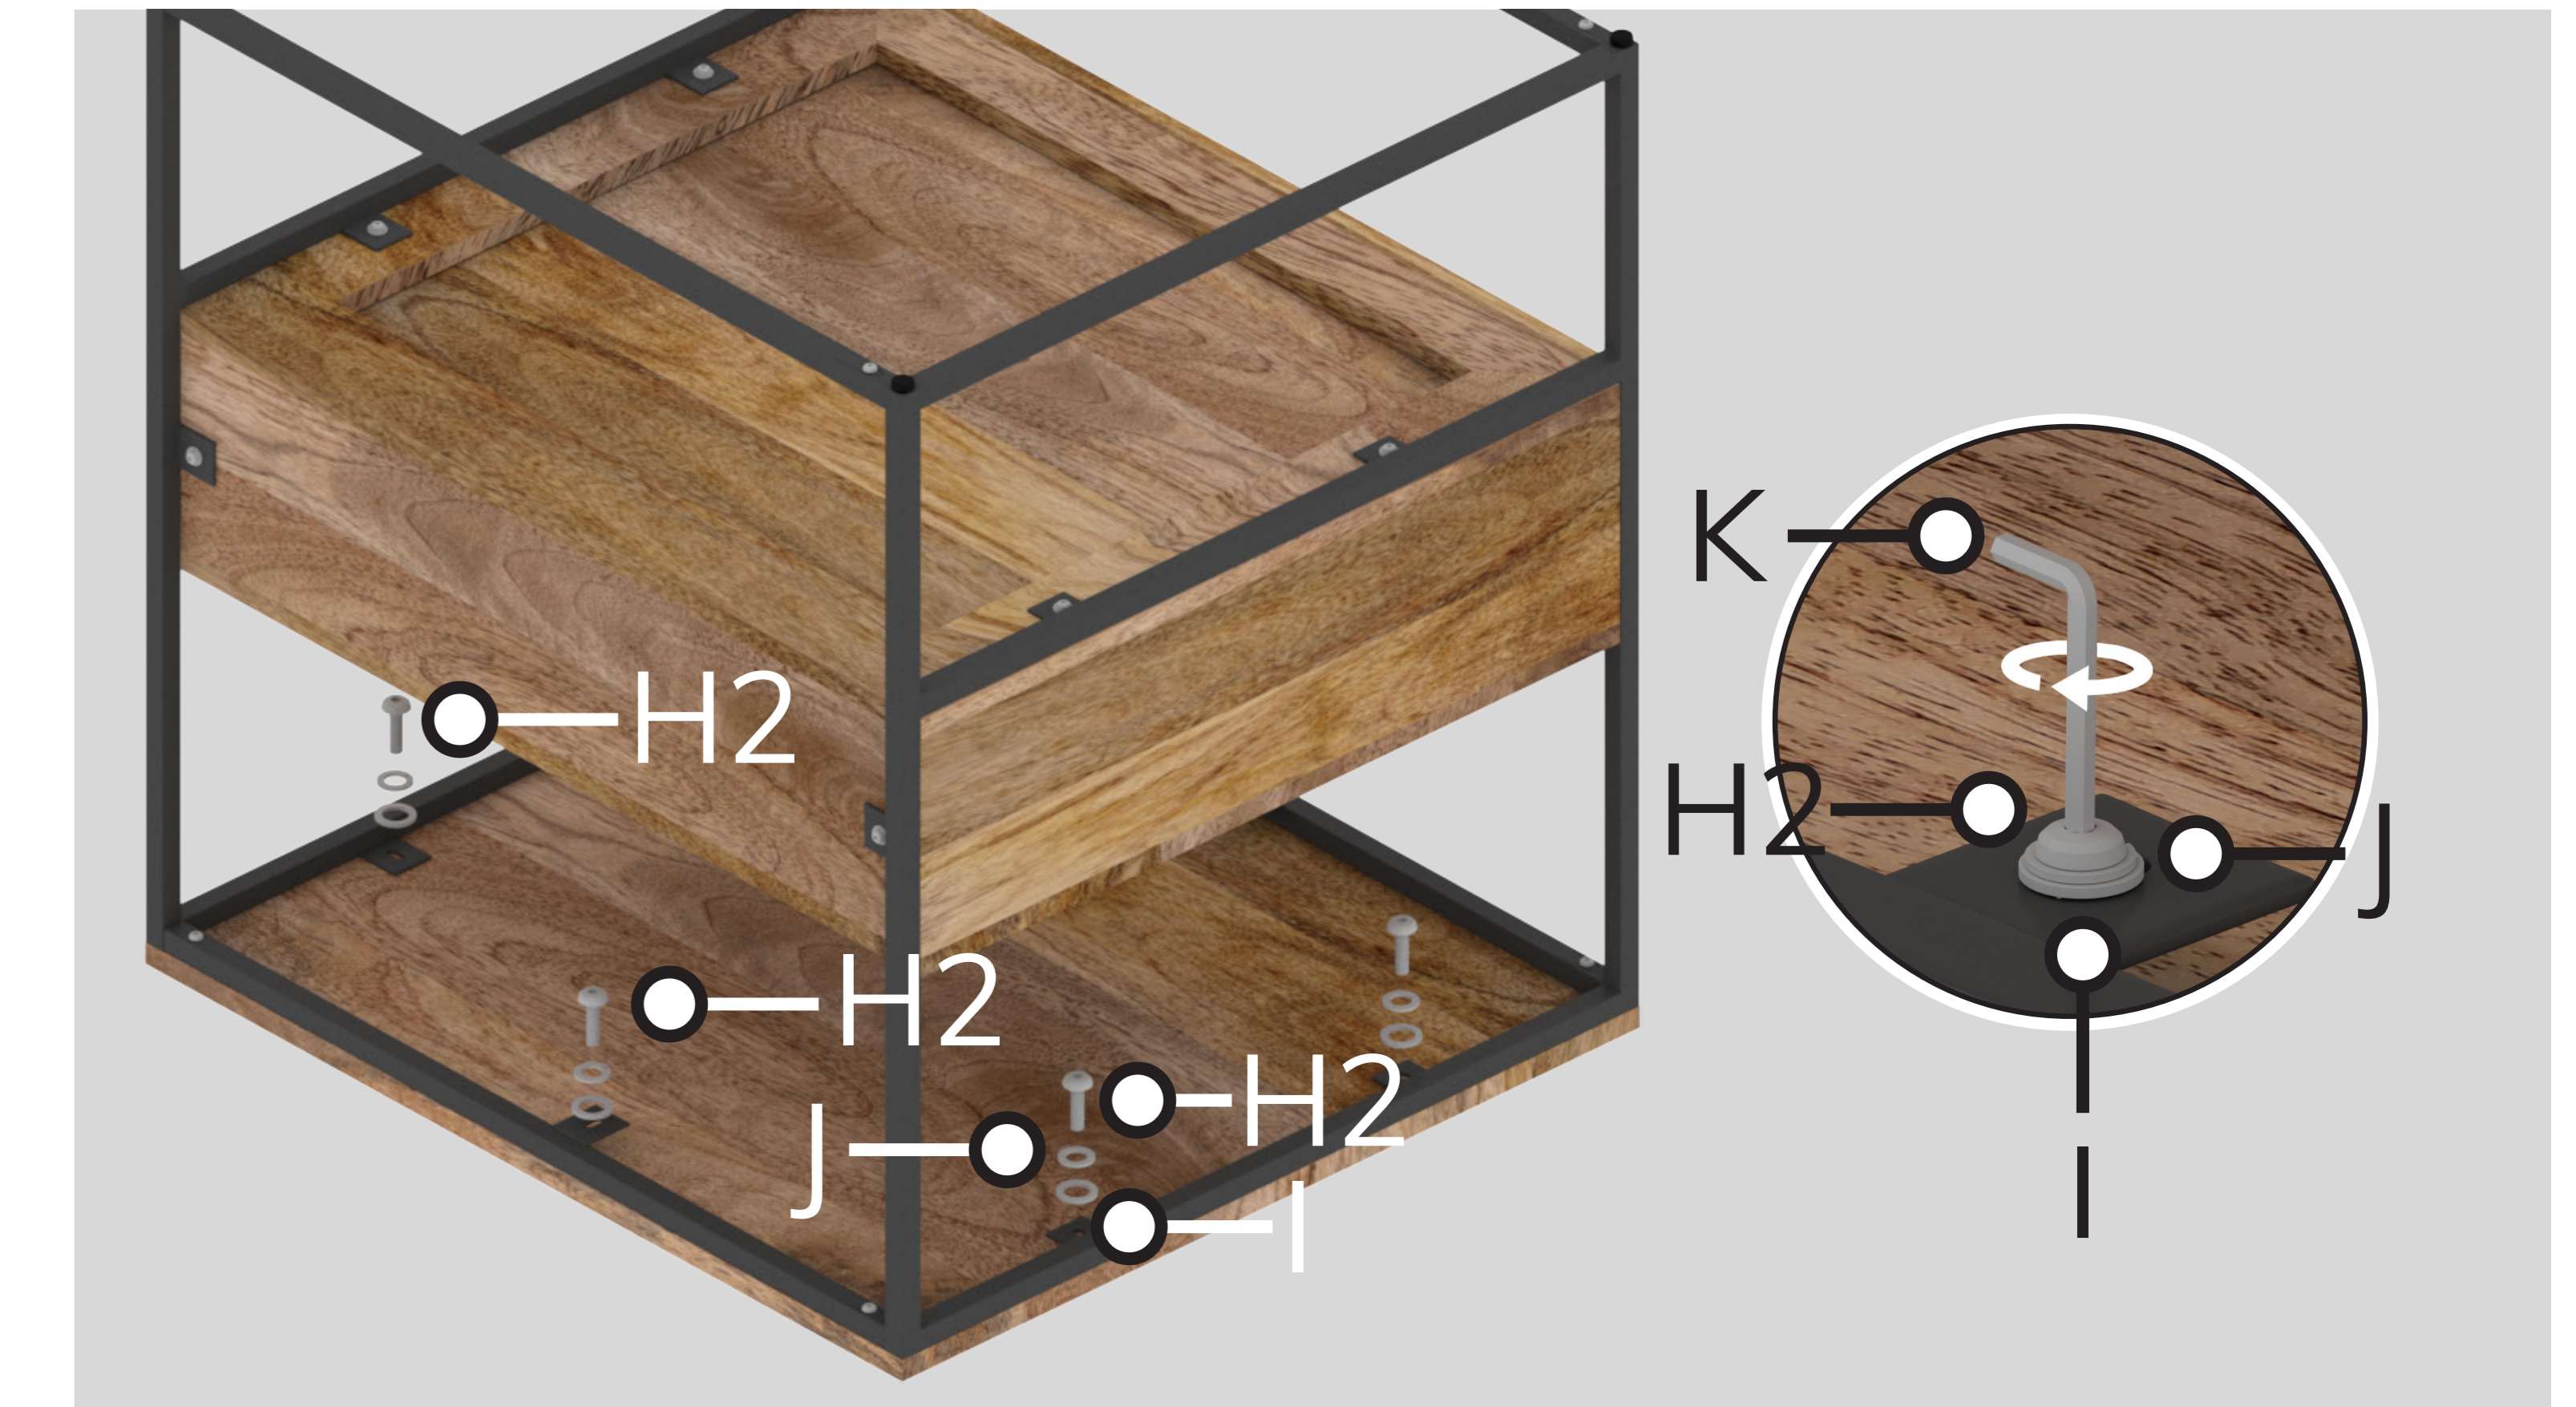

step 5:

Next, flip the table at 90 degrees so that pipes (E, F) with metal slots face down. Align the colours on the tabletop (A) with their counterparts on the metal frame.

step 6:

Attach tabletop (A) in place (see highlighted areas for reference) using washer (I), lock washer (J), and bolt (H2). Tighten points using allen key (K).

Voila! Your table is now assembled and secure!
